

ABOUT US

At SI Retail our focus is to provide you with a range of shopfitting solutions suited to your exact needs. We study your brand and work with you to deliver effective methods of displaying your stock, advertising promotional products or just simply help you stand out from the crowd. With extensive industry knowledge, our professional team will work with you to scope out all the details in order to deliver the most effective solutions relative to your needs. Whether it be merchandising, displays, point of sale or custom design, we will find the perfect solution for your brand!

SI Retail is committed to giving our customers the best opportunities and the most holistic service possible. Although our family owned business has been operating in Australia since 1974, we established our own office in China in 2006 to focus on sourcing, manufacturing and shipping. Our bilingual Chinese team of designers, quality controllers, project coordinators, product buyers and logistics supervisors coordinate with our Australian industrial designers and project managers, giving us the unique ability to ensure the supply chain is fully controlled – from the start of your project through to its completion.

In 2019, we opened an office/showroom/warehouse facility in Melbourne as part of our expansion to better cater for our Victorian customers. This is complementary to our large Brisbane head office and warehouse which enables immediate deliveries direct to your stores.

EZI-Q®

IN-QUEUE MERCHANDISING SYSTEM

Black in colour, the EZI-Q® merchandising system transforms wasted floor space into valuable additional retail space and helps increase profits per square meter by generating impulse sales from waiting customers.

An efficient in-queue merchandising system presents an opportunity for all retailers to maximise sales as it encourages customers to impulse buy and collect additional items on their way to the checkout. Whilst customers are queued, you have their full attention, time, and (soon) money, so reduce perceived wait times by distracting them with an effectively merchandised EZI-Q® system full of impulse products that the customer may have forgotten or may like to add to their basket.

This durable system can be fully customised and tailored to suit your store size and layout. The versatility of the EZI-Q® allows you to display numerous types of product and quickly adjust the displays to add more sections during peak trading periods or change it up for new seasons.

Custom colour 'white' shown
(Lead times & minimum order quantities apply)

KEY FEATURES & BENEFITS

- Increases revenue from impulse sales.
- Strong and durable metal components.
- Lowers customers perceived wait times.
- Supports customer way-finding from entrance to exit.
- Stimulates a positive customer experience.
- Customisable and flexible to suit an array of products and store layouts.
- Stylish round posts are slotted on four sides enabling versatility in configurations.
- Tie bars join posts to ensure strength.
- Easy to install and reconfigure.
- Round base feet for corners and oval base feet for all other locations equate to a neatly presented and stable display for various products.
- Floor levelers are included with both round and oval base feet.

1. LAYOUT

- Each bay is 1200mm high x 914mm wide with connectable accessories to maximise product exposure. Consider your store layout and available space.
- Map out the best configuration (using the dimensions above) to suit this space.
- Work out how many bays you require then plan what products you wish to advertise on each bay and make a note of the best panel backings to suit these items.
- Ensure your configuration guides customers to the check-out with ease and items are strategically placed to entice your customer as they move through the queue.

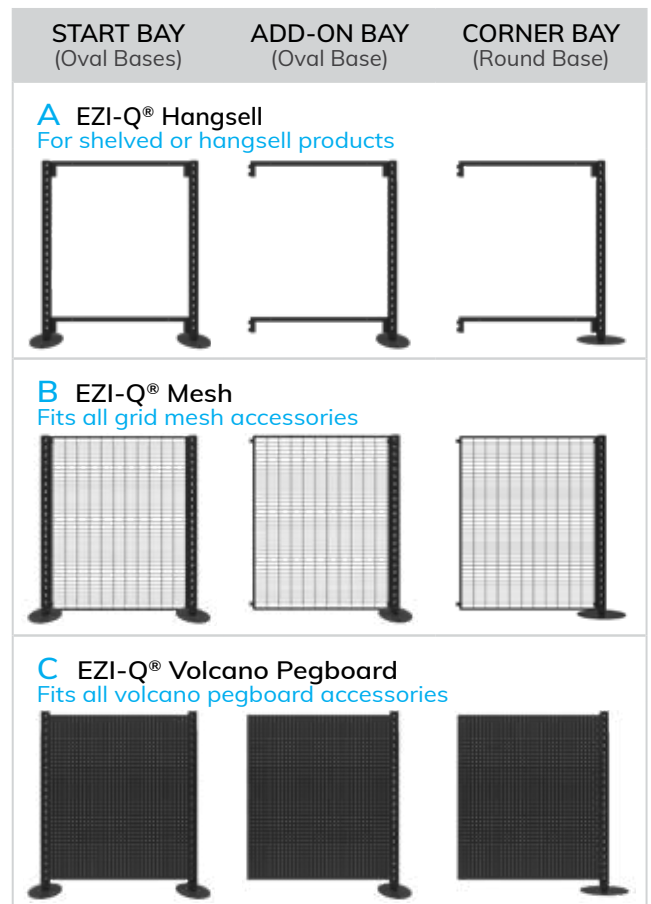

2. BAY CONTENTS

- Begin with a **START BAY** (2 posts and 2 base feet) in your choice of panel style:

- A Hangsell (Includes 2 x Tie Bars),
- B Mesh or
- C Volcano Pegboard

OR build feet, posts and panels individually using the main components.

- Next, join **ADD-ON BAYS** or **CORNER BAYS** (1 post and 1 base foot each) to build and customise your queue.
- Add extra tie bars (QM-TB) or crossbars (QM-CB) to a hangsell bay (A) to display a full bay of hanging products.
- Finally, add display hooks relative to the panel style you have chosen (for all areas you wish to display hangsell product). View our range of display hooks and hook accessories on pages 31-39.

3. MIX 'N MATCH ACCESSORIES

Take advantage of the versatile functionality of the EZI-Q® system and build it to suit your planograms or simply merchandise both sides of each panel for high impact.

Shelf Options

- Flat or Angled Shelf
- Magazine Rack
- Wire Basket

Display Hooks

- Tie Bar or Crossbar Hooks
- Grid Mesh Single Prong or Flip Scan
- Pegboard Single Prong or Flip Scan

Signage

- A4 Metal Sign Holder
- Metal Stem (Suits T-Piece & Coloured Ticket Frames)
- Horizontal Sign Holder

Display Accessories

- Acrylic Bowl
- Crossbar or Tie Bar
- Hand Sanitiser Cradle

MAIN COMPONENTS

UPRIGHT 4-WAY POST

QM-U

Posts can be purchased separately to add onto an exiting EZI-Q® system. Slots on four sides of each post allows for custom layout configurations in any of the four directions.

Colour	■ Black
Size (mm)	1200 H x 60 Diameter

BASE FEET FOR POST

QM-F

Round feet are used when creating a corner, they tuck away out of sight whilst oval feet are used in all other locations for maximum stability. Both styles include floor levelers.

Colour	■ Black
Round Size (mm)	300 Diameter
Oval Size (mm)	500 L x 200 W

BACKING PANELS 914mm WIDE

QM-VP (Peg) & QM-WM (Mesh)

Colour	■ Black
Volcano Pegboard Sizes (mm)	300 & 400 H x 914 W
Wire Mesh Size (mm)	1200 H x 914 W

See pages 31-32 for pegboard hooks and 35-36 for grid mesh hooks

12mm MERCHANDISING BARS

QM-TB & QM-CB

Tie bars are used to join two posts without the need for any backing panels. Connect one across the bottom of your post and one across the top. Place crossbars in-between to maximise available hangsell space.

Colour	■ Black
Size of Both (mm)	12 W x 914 L

See page 38 for bar hooks

FLAT METAL SHELF WITH BRACKETS

QM-SF-914-T

Strong metal shelf with angled front face and adjustable brackets. Shelf accepts wire fence or acrylic risers, perfect when positioning the shelf on an angle.

Colour	■ Black
Shelf Size (mm)	914 L x 200 D
Bracket Angles	0° or 20°

Suits **Clion**® DATA STRIPS

EZI-Q[®] ACCESSORIES

GAP COVER FOR SHELVES

Sits in-between two adjacent shelves to cover the gap and create one large shelf. This ensures product doesn't fall off the back of shelves.

WIRE BASKET

QM-WB

A large wire basket for holding a variety of loose items. Separate items with the basket divider below for more segmentation.

Colour	 Black
Basket Size (mm)	914 L x 250 D (or 400 D) x 250 H

2 Depths:
250mm or
400mm

Suits 

WIRE BASKET DIVIDERS

QM-WB-DIV

Suits wire basket above and is used to separate items for easy accessibility. Wire basket also fits 914mm wide Versa gondolas.

Colour	 Black
Divider Size (mm)	250 D x 250 H or (400 D) x 250 H

Suits 

ACRYLIC BOWL

QM-AB-230-CL-T

Includes bowl, bolt and 2 x mounting washers (small & large). Place the small washer on the base inside of the bowl and large washer under the bowl. Then use the bolt supplied to securely affix the acrylic bowl into the post.

Colour	 Clear
Diameter (mm)	230
Height (mm)	110

A4 metal sign holder
(sold separately) can
also be used to attach
the bowl to a post

METAL SIGN HOLDER / METAL STEM

QM-SH & QM-TF-STEM

The EZI-Q® metal sign holder is produced as one welded piece with the frame attached. For different sized or coloured ticket frames, the stem can be purchased as a separate item (SKU: QM-TF-STEM). See pages 47-48 for ticket frames and accessories.

VERSA GONDOLAS

The most versatile, premium, heavy-duty shelving system in the market!

Thick reinforced steel shelves with added support gussets achieve a weight load rating upwards of 150kg per shelf*

Mix 'n match backing panels on the same bay

Optional roll out drawers

*Approximate weight load based on Versa 350mm shelf and bracket. For full weight load recommendations, please refer to the 'Versa Recommended Weight Loading' specification document which can be supplied upon request.

REAR PANELS

KEY FEATURES

CONSTRUCTION

- Made from **premium grade steel** with a **50mm pitch** on upright posts.
- Kits are available with your choice of height, width, rear backing panels (**volcano pegboard, slatwall, flat metal or grid mesh**) and base shelf height/depth. Add brackets and shelves separately.
- The unique volcano pegboard design **supports heavy loads** on pegboard hooks without deflecting.

VERSATILITY

- Choose different height feet on the same double sided gondola or customise your display by combining different panel styles within the same bay.
- Accessories include **top covers, shelf risers, base drawers, horizontal/hanging signage or LED lights!** PLUS Versa gondolas also fit EZI-Q® accessories such as **wire baskets and magazine racks**.
- Other colours or sizes can be ordered (lead times and minimum order quantities apply).

SHELVES

- Two types of shelves (**wire or flat metal**).
- 300-370mm shelves feature one support gusset whilst 400mm shelves (and larger) utilise **two support gussets for extra strength**.
- Versa shelf brackets allow shelves to be positioned flat or on **one of two angles!** 10° or 20°.
- Both shelf types cater for optional **clear front risers** to be inserted. Flat metal shelves also allow for optional **wire fences**.
- Risers and fences stop products falling forward whilst maintaining an **unobstructed view of the product**; perfect when positioning shelves on various angles.
- Versatile flat metal shelves feature an **angled front edge** (for better data strip visibility).
- Special **Clip-On data strips** (pages 25 & 26) will fit both wire and flat metal shelves.

LONGSPAN SHELVING

Strong and robust steel racking system featuring a large weight load capacity - perfect for big or bulky products.

KEY FEATURES

- Premium **quality steel**, powder-coated in black, grey or white.
- 1200mm or 1800mm lengths x 600mm wide x 2000mm high (other configurations available on request).
- Kits available with **2, 3 or 4 shelf levels**.
- Highest **quality structural strength** and flexibility with **529KG rating** per shelf level.
- **Easy to assemble, bolt-together system** - no special tools needed.
- Safety locking system with locking pins included.
- Upright frames are supplied **pre-assembled with horizontal and diagonal bracing** for a robust and sturdy display.
- Frames are **bolted together** rather than welded. This ensures **greater structural flexibility and strength** over a longer period of time and prolonged use.
- Shelves are **retained within the stepped beams**, creating a flush and neat level of display.
- **High storage density** with front and rear access ensures stock can be changed quickly and efficiently.

Kits Include	2 x Uprights (1 x Upright for Add-On), 2 x Beams per shelf level, Shelves to fill shelf levels, Safety locking pins & Base plates

Start Bay

Add-On Bay

SHELF OPTIONS

RAW PARTICLE BOARD / CHIPBOARD

LS-RA-SF-T6

A cost effective option to fill beams. Sizes suit beam lengths (1200mm or 1800mm) and are 18mm thick for strength and durability.

Colour	 Raw
Shelf Widths (mm)	1200, 1800
Shelf Depth (mm)	600

BLACK MELAMINE

LS-BK-SF-T6

A presentable front of house option with PVC edging on all sides to match the black melamine. Easy to wipe down shelves; perfect for most retail industries.

Colour	 Black
Shelf Widths (mm)	1200, 1800
Shelf Depth (mm)	600

GALVANISED METAL

LS-ZC-SF-M6-600

A good option for wet environments. Durable and strong, metal shelves hold large weight loads and will last for years.

Colour	 Silver
Shelf Width (mm)	600
Shelf Depth (mm)	600

WIRE MESH DECK

LS-GR-SF-W6-600

Very strong type of shelf. Perfect for heavy merchandise, bulk products and large loads. Doesn't require dusting - meaning less maintenance is involved.

Colour	 Grey
Shelf Width (mm)	600
Shelf Depth (mm)	600

COMPONENTS

ITEM	CODE	DESCRIPTION
1. Upright Frame 2000mm H x 600mm D	LS-xx-U-600-2000	A strong pre-assembled frame with horizontal and diagonal bracing.
2. Beams a) 1200mm L b) 1800mm L	LS-xx-B-1200 LS-xx-B-1800	Beams are stepped for an even and flush shelf surface. Available in two lengths. Holds 529kg per shelf level. Includes safety locking pins.
3. Base Plate Feet	LS-BP	Base plate feet are included in Longspan shelving kits to bolt shelving to the floor.
4. Locking Pins	LS-SLP	A pin for extra safety (included in our longspan kits). It is placed in the middle of the beam where it connects to the upright frame.
5. Shelf Options a) Raw Particle / Chipboard b) Black Melamine c) Grid Wire Mesh Deck d) Galvanised Metal	LS-RA-SF-T6 LS-BK-SF-T6 LS-GR-SF-W6-600 LS-ZC-SF-M6-600	Shelves are available in 4 different styles to suit your merchandise, use, store branding and budget.

WALL STRIPPING

A simple method for effective shelving is the use of wall stripping. Choose your uprights, brackets and shelves for a streamlined display mounted to your wall. This method helps save on space and is much more cost effective than freestanding systems. Wall stripping is perfect for displaying lighter products on walls for a clean and uncluttered display.

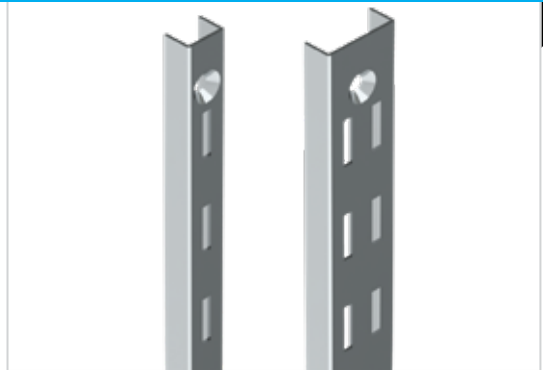

WALL STRIP UPRIGHTS

Uprights consist of a 40mm pitch and are available with single or double slots. Single slots are suited for the end of your shelving whilst double slots are used for holding a bracket on either side for the continuation of shelving across a larger wall.

Chrome

Pack Qty	1	
Styles Available	Single Slot	Double Slot
Heights (mm)	1800, 2400	1800, 2400

WS-S & WS-D

WALL STRIP SHELF BRACKETS

Brackets designed specifically for wall strips. Supports glass, acrylic or melamine shelves. Available in 200, 250, 300 and 400mm lengths. Use 2 brackets for each shelf length and connect multiple shelves for a larger area with the centre shelf grommets. Shelf grommets (sold separately on next page) protect shelves from scratches.

Chrome

Pack Qty	1
Lengths (mm)	200, 250, 300, 400

WS-BS

SHELF GROMMETS

Grommets are used on top of brackets before adding a shelf, to keep shelves sturdy and in their place. End grommets are used for the end of a shelf, whilst centre grommets are placed on top of a bracket to support shelving on either side.

Pack Qty	1
Lengths (mm)	600, 900, 1200
Depth of Shelf (mm)	300

SF-MEL

WALL STRIP HANGRAIL

Hangrails are used to hang garments outwards from a wall strip display. Insert shelves slightly smaller than the hangrail to utilise the open area at the front of the rail to hang merchandise. This allows you to both hang and shelve items on the one fitting. Choose a shelf 255mm deep (not included) to utilise this functionality. Brackets for holding shelves neatly within the hangrail are sold separately on page 60. A variety of hangrail lengths are available, all with 300mm depths.

EZI-GLIDE®

AUTO FACING ROLLER SHELVES

Front View

Side View

KEY FEATURES

- Quick and easy to install.
- Low maintenance resulting in reduced labour costs.
- Improves product presentation and ensures products are always front facing.
- Improved stock rotation, perfect for back fed refrigerated merchandising.
- Durable and long lasting.
- Versatile and adjustable dividers to support heavier products. Choose from steel wire or full steel dividers.
- Boosts category sales by offering a consistent display of stock.
- Mats can be modified to increase or decrease widths in 50mm increments.
- Other sizes can be ordered (minimum order quantities and lead times apply).

GRAVITY ROLLER SHELF MATS

EZ-G1-RS

The newest product gaining popularity is Ezi-Glide® roller shelves. This unique system is used as a gravity feed shelving solution which improves visibility of product and allows for easy re-merchandising. With it's auto facing ability, the result is no more empty facings, which equates to more sales!

Mat Colours	Black	Off White
Depths (mm)	572	294
Set Widths (mm)	693, 743	450
Width Sizing (mm)	Mat widths can be resized in 50mm increments	

PRODUCT DIVIDERS

Dividers are easy to move and align along numbered perforated front and back rails, creating perfectly straight displays. Choose from simple steel wire dividers for most everyday products or try the full steel style of dividers which stand 110mm in height, perfect for large and heavy items.

Chrome Stainless Steel Wire Full Steel Powder coated Black

Pack Qty	10

110mm High Full Steel Powder Coated Black
EZ-G4-MD

3mm Stainless Steel Wire Dividers
EZ-G3-WD

FRONT RISERS

Place an acrylic riser at the front of the mat to stop products falling forward and off the shelf. The benefits of using clear front risers fed into the roller track from the sides means that the riser will not fall out and break unlike similar gravity fed systems used in the market which utilise a drop-in style of front riser.

Clear

Pack Qty	10

Heights (mm)	35	70, 100	50, 70, 100, 120

EZ-G2-FR

ANGLED SHELF SUPPORTS

If your shelf is unable to be angled itself, simply use our angled shelf supports to instantly angle the roller gravity mat. These angled shelf supports are so easy to use, just clip one onto either side of the back of the mat to sit your mat at either a 15 or 21 degree angle. Your products will now use gravity to slide along the rollers to the front of the mat creating the perfect self-facing system.

EZ-G5-AS

DIVIDE-IT[®]

SHELF MANAGEMENT SYSTEM

SI Retail's shelf dividers are designed for the ever changing in-store environment to allow for quick merchandising and a seamless product presentation. Pushers and Dividers are great tools for helping to reduce staffing costs related to shelf maintenance and enhance your customers shopping experience by making it even more convenient to browse.

T-RAILS & RISERS

T-Rails sit on the front and back of shelves for the dividers and pushers to clip onto. They hold the dividers in place and are available in a clip-on version for wire shelves (extra replacement clips are also available), adhesive version for most applications or a magnetic version for metal shelves. Adhesive T-Rails with 40mm high front risers are commonly used with pushers to stop product from being pushed too far forward and off the shelf.

Clear

Pack Qty	10
Lengths (mm)	900, 914, 1200
Styles Available	Clip-On, Adhesive, Magnetic or Adhesive with 40mm High Front Riser

SMS-RT & SMS-RL

DIVIDERS

Dividers are used to separate different products on your shelves for a neat and consistent display. They are available in either a 60mm height or 120mm height and are made to a number of different lengths to suit all shelving sizes. T-Rails are sold separately and are placed along the front and back of the shelf for the dividers to clip into.

Clear

Pack Qty	40

120mm Divider Lengths (mm)	335, 385, 435, 485

SMS-DS

PUSHERS

Pushers, Pusher Back Plates & Front Risers are commonly used with shelf dividers as a full shelf management system. The 30mm wide pusher connects to the T-Rail (between two shelf dividers) to ensure your products are always placed at the front of the shelf even when a customer takes an item. Pusher back plates can be added for larger items which need a taller pusher.

STACKED LED KITS

Purchase an easy to assemble vertical kit and then add extra LED strip lights to light up all of your shelves! Kits are available depending on shelf configuration (1 x LED strip per shelf) and come complete with magnets to secure the LED strip and power track to your shelf.

Position tracking rail with connectors along the rear (1) or side (2) of your gondola!

DAISY CHAIN LED KITS

Daisy chain LED kits are used for lighting a horizontal strip along gondolas whereby the power track is bypassed and instead, a direct link to the power supply is utilised (LED-PC-MWST). No power tracks or power track to LED connectors are required for a daisy-chain horizontal set up. LEDs connect to each other with an LED to LED connector (LED-PC-LL), creating a 'chain' of LED light across your store. Please note that no more than 4 lights are recommended per daisy chain splitter.

DATA STRIPPING

SI Retail offers the highest quality data strips. We stock a wide variety of profiles, sizes and styles including self-adhesive, hanging and clip-on versions, with a selection of colours, heights and lengths available.

The clear front panels protect your labels and are completely transparent to allow for accurate scanning of barcodes and maximum visibility to customers. All data strips can be cut to suit your shelves.

Efficient manufacturing techniques, high quality materials and superior Avery Dennison tape ensures our data strips are made to last and always present well.

The popular Avery Dennison tape boasts features such as:

- Resistance to heat, UV and humidity
- Stain resistance and elimination of yellowing or other colour changes
- Clear adhesive means an invisible assembly every time!

VERSA WIRE SHELF

COMMON WIRE SHELF

The first of its kind, patented clip-on feature - exclusive to SI Retail.

Granted Innovation Patent Nos. 2019100606 and 2019100660, Standard Patent Pending Nos. 2018204559 and 2019204920; Design Regn Nos. 201814049 and 201814050.

Introducing new Clip-On data strips. An alternative to traditional self-adhesive data strips; this style was designed with versatility in mind. In addition to being used on Versa flat metal shelves and EZI-Q® shelf options, it also clips onto most common standard wire shelves with a 27mm front face and 12mm return.

- No adhesive = less mess, less cleaning, an easier application and reduced labour costs.
- Temperature and humidity doesn't impact the stability. Ideal for use in cold rooms or refrigerators.
- Fits most common standard wire shelves. One data strip can be used in both the flat or angled position on Versa flat metal shelves with a simple clip-into-place motion.
- Available with or without the exclusive talker grip.

EXCLUSIVE TALKER GRIP

Our patent pending talker grip profile is the best design on the market today. The handy finger grip ridge allows for talkers or tickets to be easily inserted and removed, whilst the special flexible grip teeth ensure they don't fall out or rip when being pulled out.

Granted Innovation Patent Nos. 2019100606 and 2019100660, Standard Patent Pending Nos. 2018204559 and 2019204920; Design Regn Nos. 201814049 and 201814050.

CLIP-ON DATA STRIPS

This unique data strip design requires no tape at all. It simply clips onto the shelf edge and grips underneath the shelf lip for a secure, simple and clean application. The data strip can be adjusted to sit flat or angled on Versa flat metal shelves, and is designed to fit any wire shelf with a 27mm front face and 12mm return.

DISPLAY HOOKS

Hangsell products are best displayed on hooks! Whether you have a Volcano Board, Pegboard, Slatwall, Flat Metal or Grid Mesh Panel, SI Retail has the hooks to suit.

SI Retail's flip scan display hooks are designed so that the label remains level irrespective of the load on the hook, meaning all of your labels will align neatly no matter what you are displaying. With a large array of sizes and wire diameters, there are hooks to suit every application.

VOLCANO PEGBOARD

LOOP HOOK

DHP-L4

Gain stability when displaying heavy products with the use of loop hooks. They suit Volcano Board, Pegboard and Slatwall and are available in a wide variety of lengths.

Chrome

Pack Qty	25
Lengths (mm)	75, 100, 150, 225
Wire Diameter (mm)	4

FLIP SCAN LOOP HOOK

DHP-FL4

Chrome flip scan loop hooks provide an area to attach a label holder (sold separately). They suit Volcano Board, Pegboard and Slatwall and are available in a variety of different lengths. They help to hang unbalanced packaging evenly. Label holders are available in many different colours and with or without a talker grip.

Chrome

Pack Qty	25
Lengths (mm)	150, 225
Wire Diameter (mm)	4

SINGLE PRONG

DHP-S

Pegboard single prong hooks suit Volcano Board and Slatwall too. They are available in a wide variety of lengths and wire diameters. These simple hooks keep your hangsell products looking neat and tidy.

Chrome

Pack Qty	25	
Lengths (mm)	50, 75, 100	150, 225, 300
Wire Diameters (mm)	4	5

FLIP SCAN

Chrome flip scan hooks provide an area to attach a label holder (sold separately) and suit Volcano Board, Pegboard and Slatwall panels. Choose from a variety of lengths and two different wire diameters. Label holders are available in many different colours, sizes and with or without a talker grip.

Chrome

Pack Qty	25	
Lengths (mm)	75, 100, 150	150, 225, 300, 400
Wire Diameters (mm)	5	6

Label holder sold separately (page 39)

SINGLE PRONG FASTBACK

Perfect for tight spaces such as under shelves, fastback display hook stems attach to a fastback adapter. This combination is designed to save time by helping you place or move hooks on display without removing shelves or merchandise around the hook as there is no need to tilt the hook up to insert it into your gondola panel.

Chrome

Pack Qty	25	
Lengths (mm)	150, 225, 300	
Wire Diameter (mm)	5.5	

Stem and fastback can be ordered separately

FLIP SCAN FASTBACK

Flip scan fastback hooks provide an area to attach a label holder (sold separately). Hook stems are universally designed to clip into different adapters as required, meaning one hook stem will fit both adapters (Pegboard or Grid Mesh). The fastback style allows for a direct application into tight spaces such as under shelves or in-between merchandise as the stem does not require tilting upwards to be inserted.

Chrome

Pack Qty	25	
Lengths (mm)	150, 225, 300	
Wire Diameter (mm)	5.5	

Stem and fastback can be ordered separately

Label holder sold separately (page 39)

REPLACEMENT PEG FASTBACK ADAPTER

The Pegboard fastback adapter is made from durable ABS plastic and fit onto Pegboard/Volcano Board backing panels. Simply attach onto your Pegboard/Volcano Board gondola and connect a single prong or flip scan fastback hook.

Grey Adapter

Pack Qty	25	
Size (mm)	45 W x 65 H x 30 D	

DHA-FB-PEG

FLAT METALBOARD

CROSSBAR HOOKS & ARMS

SINGLE PRONG 12mm CROSSBAR HOOK

DHB-S6

Crossbar hooks attach to crossbars by simply placing the open gap section of the hook over the top of the crossbar and pressing down to lock it in place. They include a velvet inner to prevent scratches to the crossbar when attaching it.

Chrome

Pack Qty	25
Lengths (mm)	100, 150, 200
Suits	Any 12mm Crossbar (Versa / EZI-Q®)

FLIP SCAN 12mm CROSSBAR HOOK

DHB-F6

Simply attach this hook to a crossbar by placing the open gap section of the hook over the top of the crossbar and pressing down to lock it in place. A velvet inner prevents scratches to the crossbar. This style of hook includes an area for attaching a label holder (sold separately) to price items hanging from the hook.

Black Chrome

Pack Qty	25
Lengths (mm)	100, 150, 225
Suits	Any 12mm Crossbar (Versa / EZI-Q®)

12mm CROSSBAR ARMS

WS-R12

Crossbar arms are used to display garments out from a 12mm crossbar in order to save space on your floor. They help to ensure a neat apparel display and include notches so hangers cannot slide off the front. Many different styles are available to suit a variety of different clothing items.

ADJUSTABLE PALLET GUARD

FD-PG-BK

A simple method for concealing the base of existing pallets to make it more attractive and help draw attention to products. Pallet guards also have the added safety benefit of ensuring the corners of pallets are fully covered, protecting customers from any sharp edges. All wooden edges are completely hidden, resulting in a visually appealing display. Add custom promotional messages to your pallet guard by inserting printed corflute (shown in image). Contact us for a template.

HAND SANITISER STATION

An effective hand sanitiser stand to encourage personal hand hygiene for preventing the spread of viruses and bacteria in busy or high traffic locations. Ideal for use in waiting rooms, break rooms, restrooms, entryways, offices, retail stores and all other busy locations; the portable and durable hand sanitising station is a vital necessity in any area to maintain a high level of hygiene. Please contact us for a double-sided stand or if you require any customisations.

KEY FEATURES

- Strong and heavy-duty, metal components.
- Flexibility to hold different shaped sanitiser bottles.
- Versatility of swapping out ticket frames for other colours/sizes.
- The design allows for an extra cradle to be added (making the stand a double-sided station).
- Customisable options such as colour, lockable or different sized cradle holders are available upon request.

EZI-Q® INTEGRATION

The wire cradle can also be used on the revenue generating EZI-Q® impulse display system.

See page 5 for more information.

SIGNAGE / POINT OF SALE

SI Retail provides a complete range of signage and point of sale display systems to suit all retail outlets. From external sign boards, window signage, internal snap frames, hanging banners and shopping baskets to talker ticketing, poster grips, and general visual merchandising signage; the possibilities are endless.

Signs are used to draw attention to promotions and to convey information about your business. Below are examples of how some stores are utilising signage to entice customers. The aisle sign below is held up using two magnetic aisle sign holders attached to the gondola. Quality is imperative when it comes to holding signage and SI Retail only stock the highest quality sign holders, acrylics, T-grips and ticket frames.

END-SIGNS

Created in 1974, the End-Sign was the foundation of our business and is still an effective promotional tool used on store fronts to increase product or brand awareness. Stand out to customers and maximise your exposure with an eye catching custom printed end-sign. Perfect for attaching to shop windows, the end-sign makes it easy for customers to find your store and is a cost effective tool for attracting passing traffic.

Featuring a high quality and solid design; the end-sign components can be purchased individually or as a full kit. UV stabilised blank flags withstand environmental elements and are available to be purchased for custom printing by your local print specialist.

- 1 Peel off the double-sided tape backing from the base and adhere to a surface.
- 2 Insert the bush into the top of the base and slide it down to lock it into place.
- 3 Insert the pole into the bush.
- 4 Insert the flag into the slit of the pole.
- 5 Attach the end cap to the pole to lock the flag into place.

END-SIGN KITS

This kit contains all components needed for an end-sign except for the flag. Available in black or white, the kit contains an adhesive base, a bush which slides into the base (allowing you to display your flag on two different angles with the option of mounting the base vertically or horizontally), the main pole and the end cap which is placed on the end of the pole once your flag is inserted to lock the flag in place.

SLATWALL

Slatwall is one of the most popular panel backings available today. It consists of 100mm panels with 10mm grooves stacked together to form a wall. SI Retail stock a huge variety of Slatwall displays and accessories such as brackets, signs, shelves, arms, hangrails, hooks and acrylic displays.

Customers can select our free standing Slatwall spinning tower which is ideal for small store spaces and assists in helping you find the best impulse location within your store. The benefit of Slatwall display stands is that they can be easily configured with a wide range of accessories including wooden or acrylic shelves, display hooks, signage and hanging fixtures such as merchandising arms, rails and organisation tools like Slatbox containers or brochure holders. It's never been so easy to create eye-popping shop displays!

SLATWALL SPINNING TOWER

DC-SW-TOWERS-460WT

Perfect for small in-store spaces, the slatwall spinning tower is a high quality solution which can be used to display a variety of hanging items. It consists of standard 100mm high slatwall panels (fits slatwall hooks) and includes protective rubbers on the base to prevent any scratches to your floor. In addition to being smooth and easy to spin, it is also very quick and easy to set-up! This space-saving tower can display hangsell products on all four sides, making it a perfect addition to your store. Add a self-standing ticket frame to the top and hooks with label holders for a complete solution (accessories sold separately).

SLATBOX STORAGE

Slatbox containers are a strong and versatile storage system comprised of different sized and shaped bins that are designed to fit into all major slotted wall systems. They provide retailers with the ability to organise their store and products to make it more appealing to customers; and are a great solution for organising and separating smaller or difficult to arrange products which may not have any hangsell ability.

Slatbox storage containers are easy to assemble and take down, making them perfect for temporary displays or for spaces where product ranges change often. They are great for all areas and have a place within every industry. From day-care centres, hospital supply rooms, confectionery stands, fishing tackle stores and everything in-between. Slatbox storage containers can also be used on pegboard displays with the use of a pegboard adapter or on grid wire/mesh with the use of a grid adapter.

Slatbox offer a large array of different styles and sizes to cater to your every need. A truly versatile product range for a variety of applications.

GARMENT RACKS

Garment racks are one of the most popular methods of displaying clothes and creating head-turning shop displays. We offer a range of high quality and affordable garment racks to suit any retail store that stocks apparel as part of their product range. Choose from mobile salesman racks, heavy-duty clothes racks, or for smaller store spaces, opt for 2-way or 4-way clothes racks with your choice of straight and/or waterfall arms.

These versatile garment racks are designed to be easily maneuverable; making them the perfect solution to display clothing for either permanent or temporary displays (whether in-store, at markets, or for any other fashion focused event). With a sleek and modern design, SI Retail's garment racks are made from high quality materials and will last for years to come. They come flat-packed and are very easy to assemble.

Try grouping items by colour, as this is visually appealing to customers. Alternatively, if you're using tiered racks, another way of increasing sales is to cross merchandise garments. This gives customers a better idea of how they can put an outfit together using your products.

MOBILE GARMENT RACKS

Collapsible salesman racks are available with either a single or double rail (black only available in single rail option). Included heavy duty castor wheels make the mobile racks great for specials, temporary displays, markets and events. They are quickly disassembled and reassembled for transportation and storage. Height and rail lengths can be adjusted to create additional hanging space.

CUSTOM SHELVING

(Designed & Made To Order)

INTEGRATED RACKING

Perfect for wholesalers or retailers who require storage above gondolas. The integrated racking system combines heavy duty back of house racking with our Versa style of gondolas for the best of both worlds. Display products on the shelves then store stock directly above the gondolas in cartons or pallets. This extra heavy duty shelving system solves the age old problem of needing storage space and is offered in two formats. One format consists of two single-sided units back to back with a spacer in-between (far right image) whilst the other format is comprised of a double sided unit with no spacer (far left image).

LONGSPAN RETAIL FLOOR SHELVING

Simple longspan shelving made to order. Signage was required to showcase aisle contents. Our solution incorporated an extension from the top of the racking with an optional category header sign.

Optional
Category
Header Sign

RETAIL/BACK OF HOUSE DIVIDER WALL

Since the rear of your store isn't seen by customers, a standard and economical longspan racking system is recommended. This type of racking can be set up in a small amount of time. The custom divider wall below was designed to attach to a longspan system and separate retail space from back of house operations. By integrating longspan racking with the divider, no floor space was lost yet stock could still be displayed with the use of crossbars mounted to the retail side.

AISLE FEATURE DENSE END

A dense end designed to finish off an aisle of gondolas. Our design features display shelves that can be positioned either flat or on an angle. The design incorporates a sign holder for the ability to insert header cards for promoting specials, brands or aisle category contents.

CUSTOM DISPLAYS

(Designed & Made To Order)

ROUND BASKET

A basket designed to attach to shelving for displaying a handful of small items, easily accessible to customers. This design includes a flip scan label holder to display pricing and product information.

ACRYLIC COUNTER DISPLAY

This simple yet effective counter confectionery display was created to sit on top of a counter at the purchase point for maximum impact and temptation!

IMPULSE WIRE DISPLAY UNIT

This custom impulse display was designed to take up minimal floor space whilst displaying both hangsell and shelved products. It features curved baskets with wire fences and dividers plus a panel of grid mesh for hangsell.

SPINNING HANGSELL DISPLAY

A spinning mobile impulse stand allowing for 15 pegboard hangsell facings. Perfect for displaying impulse items near the counter. It also includes an extra detachable panel which fits onto the top of the stand to display larger items.

FRAGRANCE CABINET

A cabinet featuring glass shelves and a lockable glass front door. By adding LED's and a big sign holder, higher priced fragrances can be easily seen but not easily touched. This helps prevent theft or breakage of valuable items.

UMBRELLA STAND

Just for umbrellas, this stand was designed to store and display a large selection of umbrellas within a small space.

WINE TASTING BENCHES

Creating displays for retailers is our specialty. The below designs feature a wine display bench and a wine tasting bench. Made from high quality timber and metal with large signage to attract attention.

MOBILE APPAREL DISPLAY

One of our customers required a mobile display to showcase their apparel. They wanted to be able to move it around to find the best position for increasing sales.

SECURITY CAMERA DISPLAY

This custom display was designed to showcase the brand and promote the quality of the security camera by allowing customers to see the recording live in store.

MERCHANDISING TROLLEY

This custom merchandising trolley was designed to allow staff to re-merchandise the retail floor without having to carry multiple items back and forth. It features baskets to hold bigger items, large drawers for posters, tickets and signage, a metal tray for pens/paper and accessory dividers on the top. It also includes a large space to hold data strips and a holder for rubbish bags. Everything you need to keep your store looking its best can now be placed in one mobile trolley and moved around the store with ease.

KNEE PAD DISPLAY

We designed this knee pad display for a local motorcycle accessories retailer. It can be attached to their Slatwall panels for displaying their knee pads on the gondolas.

ADJUSTABLE 2 TIER STAND

This custom piece was designed for the petrol and convenience industry to maximise their impulse sales. Taking up little floor space, the adjustable stand comprises of two baskets which can be moved up or down on the pole as required. It also features a frame for artwork to be easily inserted. Perfect for holding chocolate bars and potato chips, this stand allows products to really stand out and provides easy access for the consumer to grab items from each basket.

WING ENDS

Designed with the pharmacy industry in mind, wing ends attach to a classic 1500mm high end bay to add extra merchandising space on each side of the bay. Place grid mesh hooks on the wire wings to hang product on the sides of each end bay. Optional sign panels could be added to brand or categorise each side of the wing end. The wing size was designed at 1250mm high x 300mm deep x 100mm wide with sign panels holding 1250mm high x 100 wide artwork.

CAR ACCESSORIES DISPLAY

A custom display to suit pegboard gondolas was designed for a client to advertise their range of car accessories and allow customers to touch and feel the product.
