SHOP FITTINGS GUIDE

SHELVING | POINT OF SALE | SIGNAGE | CUSTOM DISPLAYS

ABOUT US

Since 1974, SI Retail has provided tailored shopfitting solutions to help businesses effectively merchandise, promote products, and stand out in the retail space. With extensive industry expertise, our team collaborates closely with clients to deliver customised solutions from displays and point-of-sale systems to bespoke designs.

As a family-owned Australian business, we expanded internationally in 2006 by establishing a dedicated office in China to manage sourcing, manufacturing, and logistics. Our bilingual Chinese team works seamlessly with our Australian designers and project managers to ensure complete supply chain control.

To better serve our growing customer base, we opened a showroom, warehouse and office in Melbourne in 2019, complementing our main head office and warehouse in Brisbane.

VERSA® GONDOLAS

The most versatile, premium, heavy-duty shelving system in the market!

Thick, reinforced steel shelves with added support gussets achieve a weight load rating upwards of 105 kg per shelf*

*Approximate weight load based on Versa® 350mm shelf and bracket. For full weight load recommendations, please refer to the 'Versa® Recommended Weight Loading' specification document which can be supplied upon request.

REAR PANELS

Available in

Black White Grey

Volcano Pegboard
Heights 100, 300, 400mm

Flat Metal
100, 300, 400mm

Grid Mesh
1200, 1400, 1800mm

Slatwall
100mm

KEY FEATURES

CONSTRUCTION

- Made from **premium grade steel** with a **50mm pitch** on upright posts.
- Kits are available with your choice of height, width, rear backing panels (**volcano pegboard, slatwall, flat metal or grid mesh**) and base shelf height/depth. Add brackets and shelves separately.
- The unique volcano pegboard design **supports heavy loads** on pegboard hooks without deflecting.

VERSATILITY

- Choose different height feet on the same double sided gondola or customise your display by combining different panel styles within the same bay.
- Accessories include **top covers, shelf risers, base drawers, horizontal/hanging signage or LED lights!** PLUS Versa® gondolas also fit EZI-Q® accessories such as **wire baskets** and **magazine racks**.
- Other colours or sizes can be ordered (lead times and minimum order quantities apply).

SHELVES

- Two types of shelves (**wire or flat metal**).
- 300-370mm shelves feature one support gusset whilst 400mm or larger shelves utilise **two support gussets for extra strength**.
- Versa shelf brackets allow shelves to be positioned flat or on 10° or 20° angles.
- Both shelf types cater for optional **clear front risers** to be inserted. Flat metal shelves also allow for optional **wire fences**.
- Risers and fences stop products falling forward whilst maintaining an **unobstructed view of the product**; perfect when positioning shelves on various angles.
- Versatile flat metal shelves feature an **angled front edge** (for better price ticket visibility).
- Special **Clip-On data strips** (page 38) will fit both wire and flat metal shelves.

VERSA[®] MOBILE SHELVING

Streamline your operations with SI Retail's Mobile Shelving Castor Wheel Kits, purpose-built for commercial and industrial environments. Designed to deliver exceptional durability and flexibility, these kits enable businesses to adapt shelving layouts quickly and efficiently, ensuring optimal use of space and time.

KEY FEATURES

- Heavy-duty performance: Engineered to support bulk storage needs, perfect for retail, warehousing, and office use.
- Enhanced mobility: High-quality swivel castors allow effortless movement, even in tight spaces.
- Locking stability: Built-in locking mechanisms on the wheels provide secure positioning to ensure safety during use.
- Simple integration: Compatible with Versa[®] shelving systems, enabling fast upgrades and unlimited possibilities!
- Robust construction: Crafted from durable materials to withstand daily industrial and retail demands.

KITS AVAILABLE

● Single-Sided kit

Includes 4 x Castor Wheels, 2 x Single End Brackets (L/R) & 2 x Tie Bars.

● Double-Sided Start kit

Includes 4 x Castor Wheels, 2 x Double End Brackets & 2 x Tie Bars.

● Double-Sided Add On kit

Includes 2 x Castor Wheels, 1 x Middle Bracket & 2 x Tie Bars.

Size (mm)	600 L x 12 W x 32 D	

WALL POST STANDOFF

GD-V-XX-WP-SO

Secure slotted upright posts to retail display walls using Versa® wall post standoffs. These sturdy standoffs allow Versa® shelving to be mounted to walls, maximizing vertical display space. Uprights feature predrilled holes, and a bolt is supplied with each standoff for easy installation.

Colours	☒ Black	☐ White
Standoff Size (mm)	50 L x 70 D	
Bolt Size (mm)	M8 Bolt	

SLATWALL

Slatwall is one of the most popular panel backings available today. It consists of 100mm panels with 10mm grooves stacked together to form a wall. SI Retail stock a huge variety of Slatwall displays and accessories such as brackets, signs, shelves, arms, hangrails, hooks and acrylic displays.

Customers can select our free standing Slatwall spinning tower which is ideal for small store spaces and assists in helping you find the best impulse location within your store. The benefit of Slatwall display stands is that they can be easily configured with a wide range of accessories including wooden or acrylic shelves, display hooks, signage and hanging fixtures such as merchandising arms, rails and organisation tools like Slatbox containers or brochure holders. It's never been so easy to create eye-popping shop displays!

SLATWALL SPINNING TOWER

DC-SW-TOWERS-460WT

Perfect for small in-store spaces, the slatwall spinning tower is a high quality solution which can be used to display a variety of hanging items. It consists of standard 100mm high slatwall panels (fits slatwall hooks) and includes protective rubbers on the base to prevent any scratches to your floor. In addition to being smooth and easy to spin, it is also very quick and easy to set-up! This space-saving tower can display hangsell products on all four sides, making it a perfect addition to your store. Add a self-standing ticket frame to the top and hooks with label holders for a complete solution (accessories sold separately).

*Hooks & accessories sold separately

LONGSPAN SHELVING

Strong and robust steel racking system featuring a large weight load capacity - perfect for big or bulky products.

KEY FEATURES

- Premium **quality steel**, powder-coated in black, grey or white.
- 1200mm or 1800mm lengths x 600mm wide x 2000mm high (other configurations available on request).
- Kits available with **2, 3 or 4 shelf levels**.
- Highest **quality structural strength** and flexibility with **529 kg rating** per shelf level.
- **Easy to assemble, bolt-together system** - no special tools needed.
- Safety locking system with locking pins included.
- Upright frames are supplied **pre-assembled with horizontal and diagonal bracing** for a robust and sturdy display.
- Frames are **bolted together** rather than welded. This ensures **greater structural flexibility and strength** over a longer period of time and prolonged use.
- Shelves are **retained within the stepped beams**, creating a flush and neat level of display.
- **High storage density** with front and rear access ensures stock can be changed quickly and efficiently.

A cost effective option to fill beams. Sizes suit beam lengths (1200mm or 1800mm) and are 18mm thick for strength and durability.

Colour	 Raw
Shelf Widths (mm)	900, 1200, 1500, 1800, 2000, 2400
Shelf Depth (mm)	600

BLACK MELAMINE

LS-XX-SF-T6

A presentable front of house option with PVC edging on all sides to match the black melamine. Easy to wipe down shelves; perfect for most retail industries.

Colour	 Black  White
Shelf Widths (mm)	900, 1200, 1500, 1800, 2000, 2400
Shelf Depth (mm)	600

GALVANISED METAL

LS-ZC-SF-M6-600

A good option for wet environments. Durable and strong, metal shelves hold large weight loads and will last for years.

Colour	 Silver
Shelf Width (mm)	600
Shelf Depth (mm)	600

WIRE MESH DECK

LS-GR-SF-W6-600

Very strong type of shelf. Perfect for heavy merchandise, bulk products, and large loads. Designed for optimal air circulation, helping to keep items dry and fresh. Doesn't require dusting – meaning less maintenance is involved.

Colour	 Grey
Shelf Width (mm)	600
Shelf Depth (mm)	600

COMPONENTS

ITEM	CODE	DESCRIPTION
1. Upright Frame 2000mm H x 600mm D	LS-xx-U-600-2000	A strong pre-assembled frame with horizontal and diagonal bracing.
2. Beams 900mm, 1200mm, 1500mm, 1800mm, 2000mm, 2400mm	LS-xx-B-xxxx	Beams are stepped for an even and flush shelf surface, which minimises damage to the shelf. Available in two lengths. Holds 529 kg per shelf level. Includes safety locking pins.
3. Base Plate Feet	LS-BP	Base plate feet are included in Longspan shelving kits to bolt shelving to the floor.
4. Locking Pins	LS-SLP	A pin for extra safety (included in our longspan kits). It is placed in the middle of the beam where it connects to the upright frame.
5. Shelf Options		
a) Raw Particle / Chipboard	LS-RA-SF-T6	Shelves are available in 4 different styles to suit your merchandise, use, store branding and budget.
b) Black Melamine	LS-BK-SF-T6	
c) Grid Wire Mesh Deck	LS-GR-SF-W6-600	
d) Galvanised Metal	LS-ZC-SF-M6-600	

WALL STRIPPING

A simple method for effective shelving is the use of wall stripping. Choose your uprights, brackets and shelves for a streamlined display mounted to your wall. This method helps save on space and is much more cost effective than freestanding systems. Wall stripping is perfect for displaying lighter products on walls for a clean and uncluttered display.

WALL STRIP UPRIGHTS

WS-S & WS-D

Uprights consist of a 40mm pitch and are available in double slots for holding a bracket on either side for the continuation of shelving across a larger wall.

☐ Chrome

Pack Qty	1
Styles Available	Double Slot
Heights (mm)	1800, 2100, 2400

WALL STRIP CROSSBAR

WS-R12

Crossbars are connected either end to uprights. They allow for crossbar arms and hooks to be added to the wall strip system. Add crossbar hooks (sold separately SKU: DHB) to display hangsell merchandise or add crossbar arms (also sold separately) to display items out from the crossbar. See page 49 for crossbar hooks and arms.

☐ Chrome

Pack Qty	1
Suits Bay Lengths (mm)	600, 900, 1200
Size of Bar (mm)	12 W x 32 H

See page 49
for crossbar
hooks

WALL STRIP SHELF BRACKETS

WS-BS

Brackets designed specifically for wall strips. Supports glass, acrylic or melamine shelves. Available in 250, 300 and 400mm lengths. Use 2 brackets for each shelf length and connect multiple shelves for a larger area with the centre shelf grommets. see below for shelf grommets.

☐ Chrome

Pack Qty	1
Lengths (mm)	250, 300, 400

SHELF GROMMETS

WSA-END / WSA-CEN

Grommets are used on top of brackets before adding a shelf, to keep shelves sturdy and in place. End grommets are used for the end of a shelf, whilst centre grommets are placed on top of a bracket to support shelving on either side.

☐ Clear

Pack Qty	10
Styles Available	End or Centre

WALL STRIP HANGRAIL

WS-HR12

Hangrails are used to hang garments outwards from a wall strip display. Insert shelves slightly smaller than the hangrail to utilise the open area at the front of the rail to hang merchandise. This allows you to both hang and shelf items on the one fitting. Choose a shelf 255mm deep to utilise this functionality. Brackets for holding shelves neatly within the hangrail are sold separately on page 16. A variety of hangrail lengths are available, all with 300mm depths.

☐ Chrome

Pack Qty	1
Lengths (mm)	600, 900, 1200
Hangrail Depth (mm)	300
Size of Bar (mm)	12 W x 32 H

HANGRAIL MELAMINE SHELVES

SF-HR12MEL

A simple shelf for all applications. Consists of a laminated MDF board and 2mm PVC edging on all sides. Available in 3 lengths, all 18mm in total thickness. Use brackets and grommets (sold separately on page 16) to add MDF shelves to your display.

☐ White

Pack Qty	1
Suits Hangrails (mm)	600, 900, 1200
Shelf Lengths (mm)	580, 880, 1180
Shelf Depth (mm)	255

EZI-Q®

IN-QUEUE MERCHANDISING SYSTEM

Finished in sleek black (with custom colours available), the EZI-Q® transforms unused queue space into high-performing retail zones. Designed to boost sales per square metre, it encourages impulse buying by engaging customers while they wait.

With customers' attention captured in the queue, EZI-Q® helps reduce perceived wait times by showcasing popular, forgotten, or add-on products—right when purchase decisions are most likely. Its durable, modular design can be fully tailored to your store's layout and scaled for peak periods.

Highly versatile, this impulse display system supports a wide range of product types and can be quickly reconfigured or expanded as needed, helping large retailers unlock more value from every inch of floor space.

Increase impulse sales & keep queues organised

Custom colour 'grey' shown
(Lead times & minimum order quantities apply)

Custom colour 'white' shown
(Lead times & minimum order quantities apply)

KEY FEATURES & BENEFITS

- Increases revenue from impulse sales.
- **Strong** and **durable** metal components.
- **Lowers** customers **perceived wait times**.
- Supports customer way-finding from entrance to exit.
- Stimulates a **positive customer experience**.
- **Customisable** and **flexible** to suit an array of products and store layouts.
- Stylish round posts are **slotted on four sides** enabling versatility in configurations.
- Tie bars join posts for added rigidity.
- **Quick and easy** to reconfigure.
- **Round** base feet for corners and **oval** base feet for all other locations equate to a **neatly presented and stable display** for various products.
- **Floor levelers** are **included** with both round and oval base feet.

1. LAYOUT

- Each bay is 1200mm high x 914mm wide with connectable accessories to maximise product exposure. Consider your store layout and available space.
- Map out the best configuration (using the dimensions above) to suit this space.
- Work out how many bays you require then plan what products you wish to advertise on each bay and make a note of the best panel backings to suit these items.
- Ensure your configuration guides customers to the check-out with ease and items are strategically placed to entice your customer as they move through the queue.

2. BAY CONTENTS

- Begin with a **START BAY** (2 posts and 2 base feet) in your choice of panel style:

- A** Hangsell (Includes 2 x Tie Bars),
- B** Mesh or
- C** Volcano Pegboard

OR build feet, posts and panels individually using the main components.

- Next, join **ADD-ON BAYS** or **CORNER BAYS** (1 post and 1 base foot each) to build and customise your queue.
- Add extra tie bars (QM-TB) or crossbars (QM-CB) to a hangsell bay (A) to display a full bay of hanging products.
- Finally, add display hooks relative to the panel style you have chosen (for all areas you wish to display hangsell product). View our range of display hooks and hook accessories on pages 43-49.

3. MIX 'N MATCH ACCESSORIES

Take advantage of the versatile functionality of the EZI-Q® system and build it to suit your planograms or simply merchandise both sides of each panel for high impact.

Shelf Options

- Flat or Angled Shelf
- Magazine Rack
- Wire Basket

Display Hooks

- Tie Bar or Crossbar Hooks
- Grid Mesh Single Prong or Flip Scan
- Pegboard Single Prong or Flip Scan

Signage

- A4 Metal Sign Holder
- Metal Stem (Suits T-Piece & Coloured Ticket Frames)
- Horizontal Sign Holder

Display Accessories

- Acrylic Bowl
- Crossbar or Tie Bar
- Hand Sanitiser Cradle

MAIN COMPONENTS

UPRIGHT 4-WAY POST

QM-U

Posts can be purchased separately to add onto an exiting EZI-Q® system. Slots on four sides of each post allows for custom layout configurations in any of the four directions.

Colour	 Black
Size (mm)	1200 H x 60 Diameter

BASE FEET FOR POST

QM-F

Round feet are used when creating a corner, whilst oval feet are used in all other locations for maximum stability. Both styles include floor levelers.

Colour	 Black
Round Size (mm)	300 Diameter
Oval Size (mm)	500 L x 200 W

Round
QM-F-R

FLAT METAL SHELF WITH BRACKETS

QM-SF-914-200-BK-T

Strong metal shelf with angled front face and adjustable brackets. Shelf accepts wire fence or acrylic risers, perfect when positioning the shelf on an angle.

Colour	 Black
Shelf Size (mm)	914 L x 200 D
Bracket Angles	0° or 20°

Suits **Clion**
DATA STRIPS®

EZI-Q® ACCESSORIES

GAP COVER FOR SHELVES

QM-GC

The gap cover fits between two adjacent shelves to close gaps and create a continuous display surface, preventing products from falling behind. Combine it with a mobile display unit to drive impulse sales, featuring customisable add-ons and accessories for a flexible, eye-catching setup.

Colour	 Black
Width (mm)	914
Depth (mm)	60

CLEAR SHELF RISER

GD-V-RF6

Designed to fit EZI-Q® and Versa® gondola shelves whether wire or flat metal these risers help keep products securely in place, enhance shelf organisation, and improve overall presentation. Ideal for maintaining neat, professional displays in busy retail environments.

Colour	 Clear
Size (mm)	902 (For 914mm Shelves) x 6 Thick
Riser Height (mm)	90 (70mm Visible Height)

WIRE FENCE & DIVIDERS

QM-FNC & QM-V-DIV

Wire dividers connect easily to wire fences to separate and organise products on a shelf, preventing items from tipping or mixing. They're ideal for creating neat, structured displays, improving product visibility, and making restocking more efficient.

Colour	 Black
Fence Size (mm)	902 L x 95 H x 6 Thick (75mm Visible Height)
Divider Size (mm)	200 L x 95 H x 6 Thick
Suits	Flat Metal Shelves 914mm L x 200mm D

MAGAZINE RACK

QM-SF-MAG

Display magazines, brochures, or newspapers neatly and accessibly in your queue area or on your 914mm Versa® gondola. This holder is perfect for keeping reading materials organised and within easy reach for customers, helping to enhance their in-store experience while they wait.

Colour	 Black
Shelf Size (mm)	914 L x 300 H x 100 D
Bracket Angles	From the Vertical Post: 17°, 33°, 53°

Includes Brackets

Suits **Clipon**®
DATA STRIPS

WIRE BASKET

QM-WB

Display bulky or loose products with the wire display basket for 914mm Versa® gondolas or EZI-Q® system. Add wire basket dividers (sold separately below) to segment products within the basket.

Colour	 Black
Basket Size (mm)	914 L x 250 H
Basket Depths (mm)	250, 400

Suits **Clipon**®
DATA STRIPS

WIRE BASKET DIVIDERS

QM-WB-DIV

Wire display baskets are perfect for bulky or loose impulse items, while wire basket dividers allow you to separate these items within the basket for a neater presentation and quicker, more efficient restocking.

Colour	 Black
Divider Height (mm)	250
Divider Depths (mm)	250, 400

CROSSBAR WIRE DISPLAY BASKET

QM-CB-WB300-BK

Perfect for showcasing small or loose items, this wire display basket is a practical addition to any retail setup. It easily fits onto 12mm crossbars, backrails, tie bars, or hang rails, making it a versatile solution for organising and highlighting products within your display.

Colour	Black
Basket Size (mm)	295 L x 210 D x x 250 H

ACRYLIC BOWL

QM-AB-230-CL

Includes bowl, bolt and 2 x mounting washers (small & large). Place the small washer on the base inside of the bowl and large washer under the bowl. Then use the bolt supplied to securely affix the acrylic bowl into the post.

Colour	Clear
Diameter (mm)	230
Height (mm)	110

A4 metal sign holder (sold separately) can also be used to attach the bowl to a post

METAL SIGN HOLDER / METAL STEM

QM-SH & QM-TF-STEM

The EZI-Q® metal sign holder is produced as one welded piece with the frame attached. For different sized or coloured ticket frames, the stem can be purchased as a separate item (SKU: QM-TF-STEM). See pages 57-58 for ticket frames and accessories.

Colour	Black
Metal Frame Size	A4 Portrait
Stem Size (mm)	240 H x 10 Diameter

A4 Metal Sign Holder QM-SH

Stem Only QM-TF-STEM

*Shown with blue ticket frame (TF-A) & t-piece (TF-TC)

HORIZONTAL SIGN HOLDER

QM-TSH (600) / GD-V-TSH (850)

Promote specials, new products or simply categorise your wire mesh Ezi-Q® to make it easy for customers to find what they are looking for. This style of sign holder is available in two (2) lengths. The 600mm length is for use on the EZI-Q® system only - when you have an acrylic bowl on top of one of the posts, whilst the 850mm length is for use when you have no acrylic bowl on the EZI-Q® and wish for the sign holder to span most of the length of the bay from post to post.

Colour	Black
Size (mm)	600, 850 L (Sides of frame 85 high)
Artwork Size (mm)	599 / 849 L x Your choice of height (image shows sign at 150 high) x 8mm max thickness corflute/PVC, with 15mm internal margin at base

Acrylic artwork protectors (shown in image) are 150mm high and available separately
QM-TSH-600-A150 / GD-V-TSH-850-A150

EZI-Q® IMPULSE DISPLAY BASKET ON WHEELS

QM-MOBILE-B6-T

Generate extra impulse sales with this versatile mobile display, designed to adapt easily to changing promotions and seasonal offers. It features lockable castor wheels for effortless mobility and can be customised with a range of add-ons and accessories, including hooks, baskets, signage, and shelves.

Colour	Black
Size (mm)	1275 H x 115 W x 580 D
Kit Options	One Sided (3 Baskets) Double Sided (6 Baskets)

EZI-GLIDE[®]

AUTO FACING ROLLER SHELVES

KEY FEATURES

- Quick and easy to install.
- Low maintenance resulting in reduced labour costs.
- Improves product presentation and ensures products are always front facing.
- Improved stock rotation, perfect for back fed refrigerated merchandising.
- Durable and long lasting.
- Versatile and adjustable dividers to support heavier products. Choose from steel wire or full steel dividers.
- Boosts category sales by offering a consistent display of stock.
- Mats can be modified to increase or decrease widths in 50mm increments.
- Other sizes can be ordered (minimum order quantities and lead times apply).

GRAVITY ROLLER SHELF MATS

EZ-G1-RS

This innovative gravity-feed shelving system enhances product visibility and simplifies re-merchandising. With its automatic facing feature, shelves always appear fully stocked — driving more sales and improving the customer experience.

Mat Colours	Black	Off White
Depths (mm)	572	294
Set Widths (mm)	693, 743	450
Width Sizing (mm)	Mat widths can be resized in 50mm increments	

PRODUCT DIVIDERS

EZ-G3-WD & EZ-G4-MD

Dividers are easy to move and align along numbered perforated front and back rails, creating perfectly straight displays. Choose from stainless steel wire dividers for most everyday products or try the full steel dividers which stand 110mm in height, perfect for large and heavy items.

ANGLED SHELF SUPPORTS

EZ-G5-AS

If your shelf is unable to be angled itself, simply use our angled shelf supports to instantly angle the roller gravity mat. These angled shelf supports are so easy to use, just clip one onto either side of the back of the mat to sit your mat at either a 15 or 21 degree angle. Your products will now use gravity to slide along the rollers to the front of the mat creating the perfect self-facing system.

☐ Silver Stainless Steel

Pack Qty	1
Angles	From the base of the shelf to the mat: 15°, 21°

DIVIDE-IT[®]

SHELF MANAGEMENT SYSTEM

SI Retail's shelf dividers are designed for the ever changing in-store environment to allow for quick merchandising and a seamless product presentation. Pushers and Dividers are great tools for helping to reduce staffing costs related to shelf maintenance and enhance your customers shopping experience by making it even more convenient to browse.

T-RAILS & RISERS

T-Rails sit on the front and back of shelves for the dividers and pushers to clip onto. They hold the dividers in place and are available in a clip-on version for wire shelves (extra replacement clips are also available), adhesive version for most applications or a magnetic version for metal shelves. T-Rails with 40mm high front risers are commonly used with pushers to stop product from being pushed too far forward and off the shelf. These are available in adhesive or magnetic styles.

☐ Clear

Pack Qty	10
Lengths (mm)	900, 914, 1200
Styles Available	Clip-On, Adhesive or Magnetic or 40mm High Front Riser (Adhesive or Magnetic)

SMS-RT & SMS-RL

DIVIDERS

Dividers are used to separate different products on your shelves for a neat and consistent display. Available in 60mm or 120mm heights with various lengths to suit all shelving sizes. T-Rails are sold separately and are placed along the front and back of the shelf for the dividers to clip onto.

☐ Clear

STACKED LED KITS USING POWER TRACK

Purchase an easy to assemble vertical kit and then add extra LED strip lights to light up all of your shelves! Kits are available depending on shelf configuration (1 x LED strip per shelf) and come complete with magnets to secure the LED strip and power track to your shelf.

Position tracking rail with connectors along the front (1) or side (2) of your gondola!

DAISY CHAIN LED KITS USING SPLITTER

Daisy chain LED kits are used for lighting a horizontal strip along gondolas whereby the power track is bypassed and instead, a direct link to the power supply is utilised. No power tracks or power track to LED connectors are required for a daisy-chain horizontal set up. LEDs connect to each other creating a 'chain' of LED light across your store. Please note that no more than 4 lights are recommended per daisy chain splitter.

DATA STRIPPING

SI Retail offers the highest quality data strips in a wide variety of profiles, sizes and styles including self-adhesive, hanging and clip-on versions. Select from a range of colours, heights and lengths.

The clear front panels protect your labels and are completely transparent to allow for accurate scanning of barcodes and maximum visibility to customers. All data strips can be cut to suit your shelves.

Efficient manufacturing techniques, high quality materials and superior Avery Dennison tape ensures our data strips are made to last and always present well.

The popular Avery Dennison tape boasts features such as:

- Resistance to heat, UV and humidity
- Stain resistance and elimination of yellowing or other colour changes
- Clear adhesive means an invisible assembly every time!

The first of its kind, patented clip-on feature - exclusive to SI Retail.

Granted Innovation Patent Nos. 2019100606 and 2019100660, Patent Pending Nos. 2018204559 and 2019204920; Design Regn Nos. 201814049 and 201814050.

Introducing new Clip-On data strips. An alternative to traditional self-adhesive data strips; this style was designed with versatility in mind. In addition to being used on Versa® flat metal shelves and EZI-Q® shelf options, it also clips onto most common standard wire shelves with a 27mm front face and 12mm return.

- No adhesive = less mess, less cleaning, an easier application and reduced labour costs.
- Temperature and humidity doesn't impact the stability. Ideal for use in cold rooms or refrigerators.
- Fits most common standard wire shelves. One data strip can be used in both the flat or angled position on Versa® flat metal shelves with a simple clip-into-place motion.
- Available with or without the exclusive talker grip.

TALKER GRIP

The handy finger grip ridge allows for talkers or tickets to be easily inserted and removed, whilst the special flexible grip teeth ensure they don't fall out or rip when being pulled out.

Granted Innovation Patent Nos. 2019100606 and 2019100660, Standard Patent Pending Nos. 2018204559 and 2019204920; Design Regn Nos. 201814049 and 201814050.

CLIP-ON DATA STRIPS

This unique data strip design requires no tape as it simply clips onto the shelf edge and grips underneath the shelf lip for a secure, simple and clean application. The data strip can be adjusted to sit flat or angled on Versa® flat metal shelves, and is designed to fit any wire shelf with a 27mm front face and 12mm return.

TOP TAPE ANGLED DATA STRIPS

DS-H

Top tape data strips are perfect for glass shelving and are angled for greater visibility. They contain Avery adhesive tape which attaches onto the top of a shelf for a seamless presentation.

Pack Qty	50		
Colours	☐ White	☐ Clear	
Heights (mm)	30	26	30
Lengths (mm)	900	914, 1200	900, 914, 1200

HANGING DATA STRIPS

DS-C

Hanging data strips are designed to display labels on baskets and wire shelving. These come complete with clips to hook onto the shelf. Extra clips are available to be purchased separately if required (DSA-CLIP). Since no adhesive is used, hanging data strips are perfect for use in refrigerators or cold rooms to price items on shelves.

Pack Qty	50		
Colours	☒ Black	☐ Clear	
Heights (mm)	26	26	39
Lengths (mm)	105, 914	105, 914 1200	105, 1200

JAW DATA STRIPS

DSA-JAW

A non-adhesive, push on style of data strip for melamine or glass shelves that leaves no sticky residue. The hinged feature on the 105mm length allows the price label to be flipped up. This is handy when removing large items from a lower shelf, as product won't get stuck against the data strip, instead the data strip will flip up and out of the way as the product is pulled forward.

☐ Clear

Type	Non-Hinged	Hinged
Pack Qty	10

DATA STRIP ACCESSORIES

Shelf merchandising is an important aspect for maintaining a well-organised store environment. Help customers identify pricing and product information through a display system which promotes professionalism.

Whatever your needs are, SI Retail stocks a variety of durable data strip accessories. There is a wide range of sizes and different configurations to suit your brand and display preferences.

DATA STRIP OPENER

DSA-OPENER

A handy tool which makes opening data strip and placing labels much easier. Use the tip to separate the clear front face from the coloured backing when inserting labels.

Black

Pack Qty	1
Size (mm)	128 L x 17 D x 20 W

SHELF TALKER/TICKET STABILISER

DSA-C25

An economical and simple shelf talker/ticket stabiliser clip which fits into the front window of flat data strip for adding promotional tickets/talkers. It holds tickets against the shelf and can be used as a substitute for talker grip data strip.

☐ Clear

Pack Qty	100
Size (mm)	25 L x 15 H

SHELF TALKER/TICKET GRIPS

DSA-G

Data strip grips help to display promotional tickets/talkers in different ways along an aisle. Hinged (A) grips allow signage to flex when bumped meaning signage doesn't fall out of the grip when taking products off the shelf. Basket (B) grips are perfect for hanging signs from wire whilst fixed (C) grips hold talkers against the data strip. The perpendicular (D) grip holds the ticket out from the shelf for high impact.

☐ Clear

D DSA-GH30

ADHESIVE SPRING WOBBLER

DSA-AWOB

Peel off the two square sticky backings then add your ticket/talker to one end and attach the other end to a flat surface. This enables the promotional ticket to wobble in order to attract more attention to your product and the promotion.

☐ White With Silver Spring

Pack Qty	10
Size (mm)	Adhesive Square: 20 W x 20 L Spring: 33 L

PVC PLASTIC TALKER/TICKET POCKET

SRG-DSA-PVC-A7

The clear protective PVC helps keep promotional talkers/tickets from ripping. Simply place your promotional ticket into the pocket then insert the top flap into any standard flat data strip. Great solution to protect tickets from becoming wet whilst in refrigerated conditions.

☐ Clear

Pack Qty	10
Artwork Insert Size (mm)	A7 Talkers/Tickets (74 W x 105 H)

DISPLAY HOOKS

Hangsell products are best displayed on hooks! Whether you have a Volcano Board, Pegboard, Slatwall, Flat Metal or Grid Mesh Panel, SI Retail has the hooks to suit.

SI Retail's flip scan display hooks are designed so that the label remains level irrespective of the load on the hook, meaning all of your labels will align neatly no matter what you are displaying. With a large array of sizes and wire diameters, there are hooks to suit every application.

VOLCANO PEGBOARD

SINGLE PRONG

DHP-S

Pegboard single prong hooks suit Volcano Board and Slatwall too. They are available in a wide variety of lengths and wire diameters. These simple hooks keep your hangsell products looking neat and tidy.

☐ Chrome ☒ Black (100, 150, 225 & 300 Only)

Pack Qty	25	
Lengths (mm)	50, 75, 100	150, 225, 300
Wire Diameters (mm)	4	5

FLIP SCAN

DHP-F

Flip scan hooks provide an area to attach a label holder (sold separately) and suit Volcano Board, Pegboard and Slatwall panels. Choose from a variety of lengths and two different wire diameters. Label holders are available in many different colours, sizes and with or without a talker grip.

☐ Chrome ☒ Black (100, 1500 & 225 Only)

Pack Qty	25	
Lengths (mm)	75, 100, 150	150, 225, 300, 400
Wire Diameters (mm)	5	6

Label holder
sold separately
(page 51)

LOOP HOOK

DHP-L4

Gain stability when displaying heavy products with the use of loop hooks. They suit Volcano Board, Pegboard and Slatwall and are available in a wide variety of lengths.

☐ Chrome

Pack Qty	25	
Lengths (mm)	75, 100, 150, 225	
Wire Diameter (mm)	4	

FLIP SCAN LOOP HOOK

DHP-FL4

Chrome flip scan loop hooks provide an area to attach a label holder (sold separately). They suit Volcano Board, Pegboard and Slatwall and are available in a variety of different lengths. They help to hang unbalanced packaging evenly. Label holders are available in many different colours and with or without a talker grip.

☐ Chrome

Pack Qty	25
Lengths (mm)	150, 225
Wire Diameter (mm)	4

Label holder
sold separately
(page 51)

SINGLE PRONG FASTBACK

DHPF-S-T

Perfect for tight spaces such as under shelves, fastback display hook stems attach to a fastback adapter. This combination is designed to save time by helping you place or move hooks on display without removing shelves or merchandise around the hook as there is no need to tilt the hook up to insert it into your gondola panel.

☐ Chrome

Pack Qty	25
Lengths (mm)	150, 225
Wire Diameter (mm)	5.5

Stem and fastback
can be ordered
separately

FLIP SCAN FASTBACK

DHPF-F-T

Flip scan fastback hooks provide an area to attach a label holder (sold separately). Hook stems are universally designed to clip into different adapters as required, meaning one hook stem will fit both adapters (Pegboard or Grid Mesh). The fastback style allows for a direct application into tight spaces such as under shelves or in-between merchandise as the stem does not require tilting upwards to be inserted. This results in labour cost savings.

☐ Chrome

Pack Qty	25
Lengths (mm)	150, 225, 300
Wire Diameter (mm)	5.5

Stem and fastback
can be ordered
separately

Label holder
sold separately
(page 51)

REPLACEMENT PEG FASTBACK ADAPTER

DHA-FB-PEG

The Pegboard fastback adapter is made from durable ABS plastic and fit onto Pegboard/Volcano Board backing panels. Simply attach onto your Pegboard/Volcano Board gondola and connect a single prong or flip scan fastback hook.

☐ Grey Adapter

Pack Qty	25
Size (mm)	45 W x 65 H x 30 D

FLAT METALBOARD

SINGLE PRONG

DHM-D

These single prong hooks are designed specifically for flat Metalboard applications. Select from a variety of lengths to suit your merchandise.

☐ Chrome

Pack Qty	25
Lengths (mm)	100, 150, 225
Wire Diameter (mm)	5

FLIP SCAN

DHM-F

Metalboard flip scan hooks are designed specifically for perforated flat metal panels. They include an area to attach a label holder (sold separately). Label holders are available in many different colours, sizes and with or without a talker grip.

☐ Chrome

Pack Qty	25	
Lengths (mm)	100, 150, 225	150, 225, 300
Wire Diameters (mm)	5	6

Label holder
sold separately
(page 51)

PEGBOARD TO METALBOARD ADAPTER

DHA-MA

A simple adapter which enables a Pegboard hook (see previous page) to fit into a flat perforated Metalboard panel. The adapter attaches to the back of any Pegboard/Volcano board hook to retain the same angle as other Metalboard hooks.

☐ Light Grey ☒ Black

Pack Qty	25
Size (mm)	37 W x 35 H x 3 D

SLATWALL

SINGLE PRONG - PLATE STYLE

DHS-S

These single prong hooks are designed specifically for Slatwall applications. Select from a variety of lengths to suit your merchandise.

☐ Chrome ☒ Black (100, 150 & 200 Only)

Pack Qty	25
Lengths (mm)	50, 100, 150, 200, 300
Wire Diameter (mm)	6

FLIP SCAN - PLATE STYLE

DHS-F

These flip scan hooks are designed specifically for Slatwall. They are available in a wide variety of lengths and designed with an area to attach a label holder (sold separately). Label holders are available in many different colours and with or without a talker grip.

☐ Chrome ☒ Black

Pack Qty	25

Wire Diameter (mm)	6

Label holder
sold separately
(page 51)

LOOP HOOK - PLATE STYLE

DHS-L6

These loop hooks are designed specifically for Slatwall. Loop hooks help to hang unbalanced packaging evenly, while the large back plate aids in supporting heavier products.

☐ Chrome

Pack Qty	25
Lengths (mm)	100, 150
Wire Diameter (mm)	6

GRID MESH

SINGLE PRONG

DHG50-S

Single prong Grid Mesh hooks are designed to fit 25-50mm mesh. Select from multiple sizes to suit your merchandise and display requirements.

☐ Chrome

Pack Qty	25	
Lengths (mm)	150	225, 300
Wire Diameters (mm)	5	6

FLIP SCAN

DHG50-F

The new version of flip scan grid mesh hooks provide an area to attach a label holder (sold separately) and suit 25-50mm Grid Mesh. This new design makes it harder for hooks to get knocked off mesh panels. A variety of lengths are available for both black or chrome colours.

☐ Chrome ☐ Black

Pack Qty	25	
Lengths (mm)	100, 150	225, 300
Wire Diameters (mm)	5	6

Label holder
sold separately
(page 51)

SINGLE PRONG FASTBACK

DHGF-S-T

Perfect for tight spaces such as under shelves, fastback display hook stems attach to a fastback adapter to fit grid mesh panels with a 25 or 50mm pitch. This combination is designed to save time by helping you place or move hooks on display without removing surrounding shelves, hooks or other merchandise. One fastback hook stem fits all fastback adapters. This results in labour cost savings.

☐ Chrome

Pack Qty	25
Lengths (mm)	150, 225
Wire Diameter (mm)	5.5

Stem and fastback
can be ordered
separately

FLIP SCAN FASTBACK

DHGF-F-T

Chrome flip scan fastback hooks provide an area to attach a label holder (sold separately). These hooks are universally designed to clip into different adapters as required. Adapters are available to suit Pegboard/Volcano Board or 25-50mm Grid Mesh panels. This hook and adapter combination suits Grid Mesh and allows for a direct application into tight spaces without having to be tilted upwards to be inserted. This results in labour cost savings.

☐ Chrome

Pack Qty	25
Lengths (mm)	150, 225, 300

SIGNAGE / POINT OF SALE

SI Retail provides a complete range of signage and point of sale display systems to suit all retail outlets. From external sign boards, window signage, internal snap frames, hanging banners and shopping baskets to talker ticketing, poster grips, and general visual merchandising signage; the possibilities are endless.

Signs are used to draw attention to promotions and to convey information about your business. Below are examples of how some stores are utilising signage to entice customers. Quality is imperative when it comes to holding signage and SI Retail only stock the highest quality sign holders, acrylics, T-grips and ticket frames.

END-SIGN FLAGS

Created in 1974, the End-Sign was the foundation of our business and is still an effective promotional tool used on store fronts to increase product or brand awareness. Stand out to customers and maximise your exposure with an eye catching custom printed end-sign. Perfect for attaching to shop windows, the end-sign makes it easy for customers to find your store and is a cost effective tool for attracting passing traffic.

Featuring a high quality and solid design; the end-sign components can be purchased individually or as a full kit. UV stabilised blank flags withstand environmental elements and are available to be purchased for custom printing by your local print specialist.

1

Peel off the double-sided tape backing from the base and adhere to a surface.

2

Insert the bush into the top of the base and slide it down to lock it into place.

3

Insert the pole into the bush.

4

Insert the flag into slit of the pole.

5

Attach the end cap to the pole to lock the flag into place.

END-SIGN KITS

This kit contains all components needed for an end-sign except for the flag. Available in black or white, the kit contains an adhesive base, a bush which slides into the base (allowing you to display your flag on two different angles with the option of mounting the base vertically or horizontally), the main pole and the end cap which is placed on the end of the pole once your flag is inserted to lock the flag in place.

SLATBOX STORAGE

Slatbox containers are a strong and versatile storage system comprised of different sized and shaped bins that are designed to fit into all major slotted wall systems. They provide retailers with the ability to organise their store and products to make it more appealing to customers; and are a great solution for organising and separating smaller or difficult to arrange products which may not have any hangsell ability.

Slatbox storage containers are easy to assemble and take down, making them perfect for temporary displays or for spaces where product ranges change often. They are great for all areas and have a place within every industry. From day-care centres, hospital supply rooms, confectionery stands, fishing tackle stores and everything in-between. Slatbox storage containers can also be used on pegboard displays with the use of a pegboard adapter or on grid wire/mesh with the use of a grid adapter.

Slatbox offer a large array of different styles and sizes to cater to your every need. A truly versatile product range for a variety of applications.

GARMENT RACKS

SI Retail offers a versatile range of high-quality, affordable garment racks to suit any retail environment. Choose from mobile salesman racks, heavy-duty options, or space-saving 2-way and 4-way racks with straight or waterfall arms. Designed for flexibility and easy movement, they're ideal for both permanent and temporary displays—whether in-store, at markets, or fashion events. Made from durable materials with a sleek finish, these racks come flat-packed and are simple to assemble. Enhance your displays by grouping items by colour or cross-merchandising outfits on tiered racks to inspire customers and increase sales.

MOBILE GARMENT RACKS

Available in single or double rail (black in single only), with heavy-duty wheels for easy mobility. Adjustable in height and rail length, they're ideal for temporary displays, markets, and quick setup or storage.

CUSTOM SHELVING

(Designed & Made To Order)

INTEGRATED RACKING

Perfect for wholesalers or retailers who require storage above gondolas. The integrated racking system combines heavy duty back of house racking with our Versa® style of gondolas for the best of both worlds. Display products on the shelves then store stock directly above the gondolas in cartons or pallets. This extra heavy duty shelving system solves the age old problem of needing storage space and is offered in two formats. One format consists of two single-sided units back to back with a spacer in-between (far right image) whilst the other format is comprised of a double sided unit with no spacer (far left image).

LONGSPAN RETAIL FLOOR SHELVING

Simple longspan shelving made to order. Signage was required to showcase aisle contents. Our solution incorporated an extension from the top of the racking with an optional category header sign.

RETAIL/BACK OF HOUSE DIVIDER WALL

Since the rear of your store isn't seen by customers, a standard and economical longspan racking system is recommended. This type of racking can be set up in a small amount of time. The custom divider wall below was designed to attach to a longspan system and separate retail space from back of house operations. By integrating longspan racking with the divider, no floor space was lost yet stock could still be displayed with the use of crossbars mounted to the retail side.

RETAIL SIDE

AISLE FEATURE DENSE END

A dense end designed to finish off an aisle of gondolas. Our design features display shelves that can be positioned either flat or on an angle. The design incorporates a sign holder for the ability to insert header cards for promoting specials, brands or aisle category contents.

CUSTOM DISPLAYS

(Designed & Made To Order)

ROUND BASKET

A basket designed to attach to shelving for displaying a handful of small items, easily accessible to customers. This design includes a flip scan label holder to display pricing and product information.

ACRYLIC COUNTER DISPLAY

This simple yet effective counter confectionery display was created to sit on top of a counter at the purchase point for maximum impact and temptation!

IMPULSE WIRE DISPLAY UNIT

This custom impulse display was designed to take up minimal floor space whilst displaying both hangsell and shelved products. It features curved baskets with wire fences and dividers plus a panel of grid mesh for hangsell.

SPINNING HANGSELL DISPLAY

A spinning mobile impulse stand allowing for 15 pegboard hangsell facings. Perfect for displaying impulse items near the counter. It also includes an extra detachable panel which fits onto the top of the stand to display larger items.

FOUR SIDED BELT HOLDER

Four-sided belt holder with a replica white oak finish and matte black frame. Designed for flexible display and bold branding in retail spaces.

UMBRELLA STAND

Just for umbrellas, this stand was designed to store and display a large selection of umbrellas within a small space.

REBEL SHOE DISPLAYS

This image features a custom-made, one-of-a-kind shoe display with curved acrylic panels and bold yellow framing. Designed to showcase high-end footwear, the sleek fixture stands out in the space. Behind it, a large shoe wall displays a wide range of sneakers in an organised and visually striking layout.

MOBILE APPAREL DISPLAY

One of our customers required a mobile display to showcase their apparel. They wanted to be able to move it around to find the best position for increasing sales.

SECURITY CAMERA DISPLAY

This custom display was designed to showcase the brand and promote the quality of the security camera by allowing customers to see the recording live in store.

MERCHANDISING TROLLEY

This custom merchandising trolley was designed to allow staff to re-merchandise the retail floor without having to carry multiple items back and forth. It features baskets to hold bigger items, large drawers for posters, tickets and signage, a metal tray for pens/paper and accessory dividers on the top. It also includes a large space to hold data strips and a holder for rubbish bags. Everything you need to keep your store looking its best can now be placed in one mobile trolley and moved around the store with ease.

KNEE PAD DISPLAY

We designed this knee pad display for a local motorcycle accessories retailer. It can be attached to their Slatwall panels for displaying their knee pads on the gondolas.

ADJUSTABLE 2 TIER STAND

This custom piece was designed for the petrol and convenience industry to maximise their impulse sales. Taking up little floor space, the adjustable stand comprises of two baskets which can be moved up or down on the pole as required. It also features a frame for artwork to be easily inserted. Perfect for holding chocolate bars and potato chips, this stand allows products to really stand out and provides easy access for the consumer to grab items from each basket.

WING ENDS

Designed with the pharmacy industry in mind, wing ends attach to a classic 1500mm high end bay to add extra merchandising space on each side of the bay. Place grid mesh hooks on the wire wings to hang product on the sides of each end bay. Optional sign panels could be added to brand or categorise each side of the wing end. The wing size was designed at 1250mm high x 300mm deep x 100mm wide with sign panels holding 1250mm high x 100mm wide artwork.

CAR ACCESSORIES DISPLAY

A custom display to suit pegboard gondolas was designed for a client to advertise their range of car accessories and allow customers to touch and feel the product.
