**SOLUTIONS IN RETAIL**

# ABOUT US

At SI Retail our focus is to provide you with a range of shopfitting solutions suited to your exact needs. We study your brand and work with you to deliver effective methods of displaying your stock, advertising promotional products or just simply help you stand out from the crowd. With extensive industry knowledge, our professional team will work with you to scope out all the details in order to deliver the most effective solutions relative to your needs. Whether it be merchandising, displays, point of sale or custom design, we will find the perfect solution for your brand!

SI Retail is committed to giving our customers the best opportunities and the most holistic service possible. Although our family owned business has been operating in Australia since 1974, we established our own office in China in 2006 to focus on sourcing, manufacturing and shipping. Our bilingual Chinese team of designers, quality controllers, project coordinators, product buyers and logistics supervisors coordinate with our Australian industrial designers and project managers, giving us the unique ability to ensure the supply chain is fully controlled – from the start of your project through to its completion.

In 2019, we opened an office/showroom/warehouse facility in Melbourne as part of our expansion to better cater for our Victorian customers. This is complementary to our large Brisbane head office and warehouse which enables immediate deliveries direct to your stores.

# EZI-Q ®

# IN-QUEUE MERCHANDISING SYSTEM

Black in colour, the EZI-Q® merchandising system transforms wasted floor space into valuable additional retail space and helps increase profits per square meter by generating impulse sales from waiting customers.

An efficient in-queue merchandising system presents an opportunity for all retailers to maximise sales as it encourages customers to impulse buy and collect additional items on their way to the checkout. Whilst customers are queued, you have their full attention, time, and (soon) money, so reduce perceived wait times by distracting them with an effectively merchandised EZI-Q® system full of impulse products that the customer may have forgotten or may like to add to their basket.

This durable system can be fully customised and tailored to suit your store size and layout. The versatility of the EZI-Q® allows you to display numerous types of product and quickly adjust the displays to add more sections during peak trading periods or change it up for new seasons.

**Increase impulse sales & keep queues organised**

Custom colour 'white' shown
(Lead times & minimum order quantities apply)

1200mm

914mm
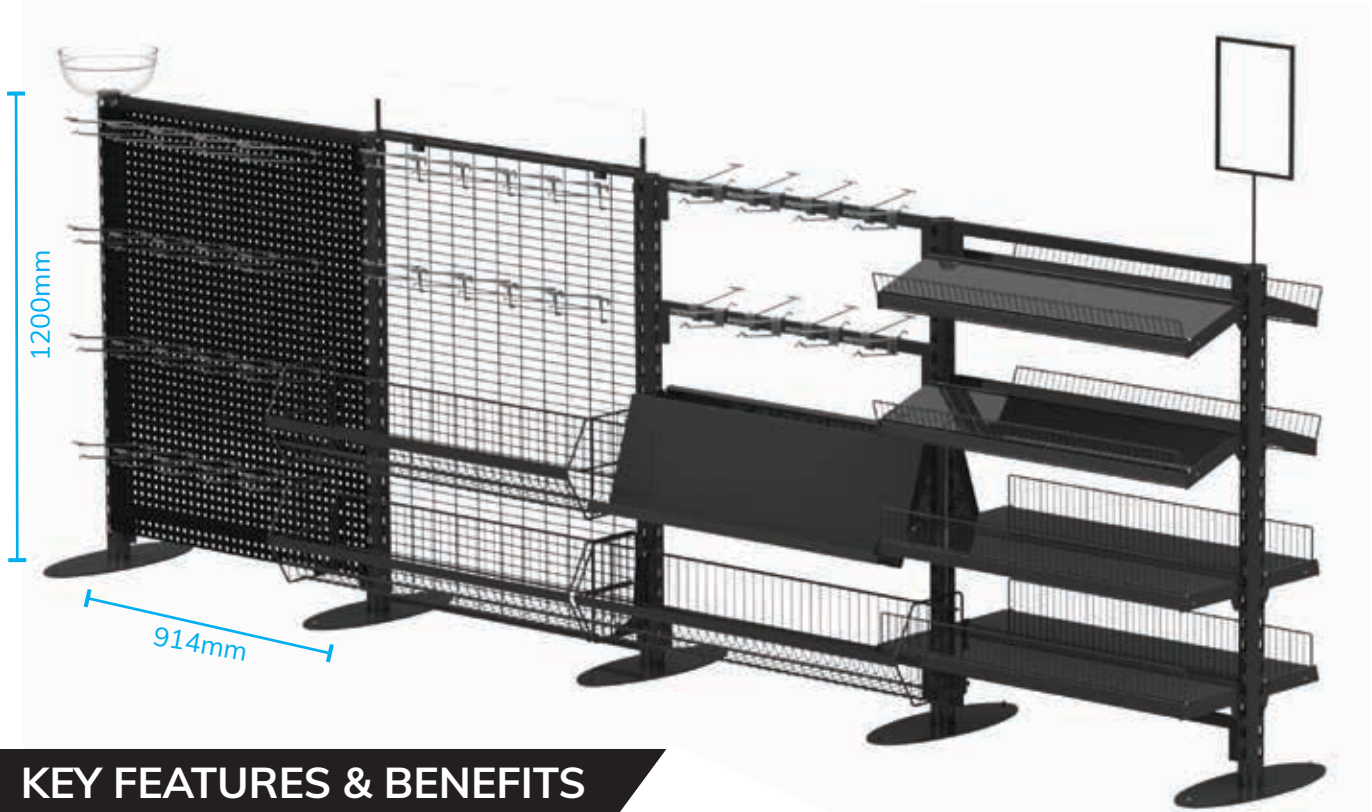

## KEY FEATURES & BENEFITS

- **Increases revenue** from impulse sales.

- **Strong** and **durable** metal components.

- **Lowers** customers **perceived wait times**.

- Supports customer way-finding from entrance to exit.

- Stimulates a **positive customer experience.**

- **Customisable** and **flexible** to suit an array of products and store layouts.

- Stylish round posts are **slotted on four sides** enabling versatility in configurations.

- Tie bars join posts to ensure **strength**.

- **Easy to install** and reconfigure.

- **Round** base feet for corners and **oval** base feet for all other locations equate to a **neatly presented and stable display** for various products.

- Floor **levelers are included** with both round and oval base feet.

# BUILDING EZI-Q®

## 1. LAYOUT

- Each bay is 1200mm high x 914mm wide with connectable accessories to maximise product exposure. Consider your store layout and available space.

- Map out the best configuration (using the dimensions above) to suit this space.

- Work out how many bays you require then plan what products you wish to advertise on each bay and make a note of the best panel backings to suit these items.

- Ensure your configuration guides customers to the check-out with ease and items are strategically placed to entice your customer as they move through the queue.
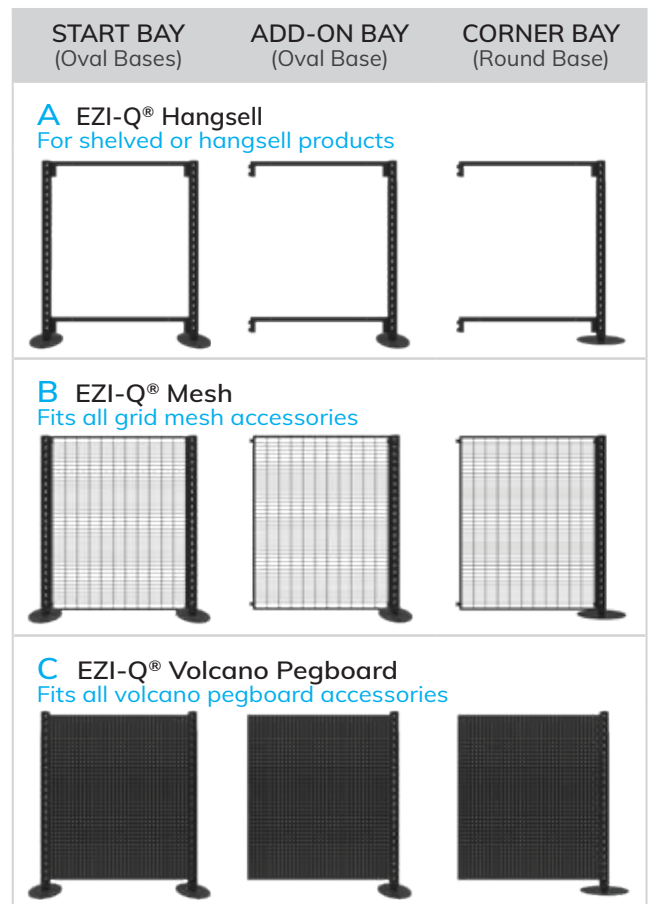

## 2. BAY CONTENTS

- Begin with a **START BAY** (2 posts and 2 base feet) in your choice of panel style:

  A   Hangsell (Includes 2 x Tie Bars),
  B   Mesh or
  C   Volcano Pegboard

  OR build feet, posts and panels individually using the main components.

- Next, join **ADD-ON BAYS** or **CORNER BAYS** (1 post and 1 base foot each) to build and customise your queue.

- Add extra tie bars (QM-TB) or crossbars (QM-CB) to a hangsell bay (A) to display a full bay of hanging products.

- Finally, add display hooks relative to the panel style you have chosen (for all areas you wish to display hangsell product). View our range of display hooks and hook accessories on pages 31-39.

| START BAY (Oval Bases) | ADD-ON BAY (Oval Base) | CORNER BAY (Round Base) |
|---|---|---|
| **A   EZI-Q® Hangsell** For shelved or hangsell products | | |
| **B   EZI-Q® Mesh** Fits all grid mesh accessories | | |
| **C   EZI-Q® Volcano Pegboard** Fits all volcano pegboard accessories | | |

## 3. MIX 'N MATCH ACCESSORIES

Take advantage of the versatile functionality of the EZI-Q® system and build it to suit your planograms or simply merchandise both sides of each panel for high impact.

### Shelf Options
- Flat or Angled Shelf
- Magazine Rack
- Wire Basket

### Display Hooks
- Tie Bar or Crossbar Hooks
- Grid Mesh Single Prong or Flip Scan
- Pegboard Single Prong or Flip Scan

### Signage
- A4 Metal Sign Holder
- Metal Stem (Suits T-Piece & Coloured Ticket Frames)
- Horizontal Sign Holder

### Display Accessories
- Acrylic Bowl
- Crossbar or Tie Bar
- Hand Sanitiser Cradle

# MAIN COMPONENTS

## UPRIGHT 4-WAY POST

### QM-U

Posts can be purchased separately to add onto an exiting EZI-Q® system. Slots on four sides of each post allows for custom layout configurations in any of the four directions.

| Colour | ■ Black |
|---|---|
| Size (mm) | 1200 H x 60 Diameter |

## BASE FEET FOR POST

### QM-F

Round feet are used when creating a corner, they tuck away out of sight whilst oval feet are used in all other locations for maximum stability. Both styles include floor levelers.
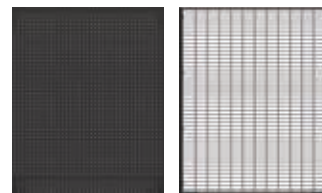

| Colour | ■ Black |
|---|---|
| Round Size (mm) | 300 Diameter |
| Oval Size (mm) | 500 L x 200 W |

Round
QM-F-R

Oval
QM-F-O

## BACKING PANELS 914mm WIDE

### QM-VP (Peg) & QM-WM (Mesh)

| Colour | ■ Black |
|---|---|
| Volcano Pegboard Sizes (mm) | 300 & 400 H x 914 W |
| Wire Mesh Size (mm) | 1200 H x 914 W |

See pages 31-32 for pegboard hooks and 35-36 for grid mesh hooks

## 12mm MERCHANDISING BARS

### QM-TB & QM-CB

Tie bars are used to join two posts without the need for any backing panels. Connect one across the bottom of your post and one across the top. Place crossbars in-between to maximise available hangsell space.

| Colour | ■ Black |
|---|---|
| Size of Both (mm) | 12 W x 914 L |

See page 38 for bar hooks

## FLAT METAL SHELF WITH BRACKETS

### QM-SF-914-T

Strong metal shelf with angled front face and adjustable brackets. Shelf accepts wire fence or acrylic risers, perfect when positioning the shelf on an angle.

| Colour | ■ Black |
|---|---|
| Shelf Size (mm) | 914 L x 200 D |
| Bracket Angles | 0° or 20° |

Suits ClipOn® DATA STRIPS

# EZI-Q® ACCESSORIES

## GAP COVER FOR SHELVES — QM-GC

Sits in-between two adjacent shelves to cover the gap and create one large shelf. This ensures product doesn't fall off the back of shelves.

| Colour | Black |
|---|---|
| Width (mm) | 914 |
| Depth (mm) | 60 |

## CLEAR SHELF RISER — GD-V-RF6

| Colour | Clear |
|---|---|
| Size (mm) | 902 (For 914mm Shelves) x 6 Thick |
| Riser Height (mm) | 90 (70mm Visible Height) |

## WIRE FENCE & DIVIDERS — QM-FNC & QM-V-DIV

| Colour | Black |
|---|---|
| Fence Size (mm) | 902 L x 95 H x 6 Thick (75mm Visible Height) |
| Divider Size (mm) | 200 L x 95 H x 6 Thick |
| Suits | Flat Metal Shelves 914mm L x 200mm D |

Divider
QM-V-DIV
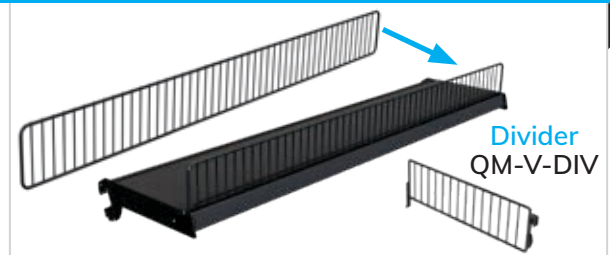

## HAND SANITISER CRADLE & SIGN — FD-SANKIT-HDSH-WT-T

NEW Hand sanitiser cradle with sign holder (see full sanitiser station on pages 41-42). Cradle holds rectangular, oval or round pump bottles with an approximate volume of 500ml.

| Cradle/Frame Colour | White |
|---|---|
| Cradle Size (mm) | 116 W x 139 D x 164.5 H |
| Kit Includes | A4 ticket frame with sanitiser sign, white T-piece & wire sanitiser cradle |
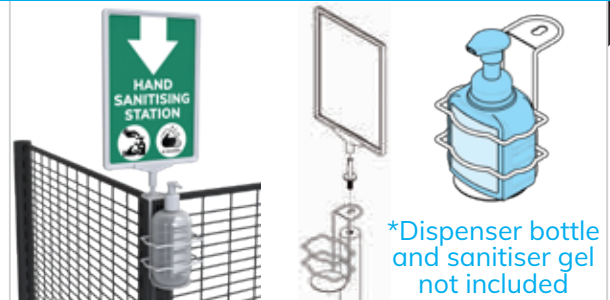

*Dispenser bottle and sanitiser gel not included

## MAGAZINE RACK — QM-SF-MAG

Includes Brackets

| Colour | Black |
|---|---|
| Shelf Size (mm) | 914 L x 300 H x 100 D |
| Bracket Angles | From the Vertical Post: 17°, 33°, 53° |

Suits ClipOn® DATA STRIPS

## WIRE BASKET

### QM-WB

A large wire basket for holding a variety of loose items. Separate items with the basket divider below for more segmentation.

| Colour | Black |
|---|---|
| Basket Size (mm) | 914 L x 250 D x 250 H |

Suits CliON® DATA STRIPS

## WIRE BASKET DIVIDERS

### QM-WB-DIV

Suits wire basket above and is used to separate items for easy accessibility. Wire basket also fits 914mm wide Versa gondolas.

| Colour | Black |
|---|---|
| Divider Size (mm) | 250 D x 250 H |

Suits CliON® DATA STRIPS

## ACRYLIC BOWL

### QM-AB-230-CL-T
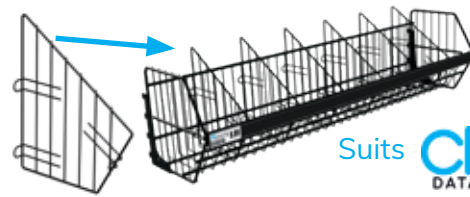

Includes bowl, bolt and 2 x mounting washers (small & large). Place the small washer on the base inside of the bowl and large washer under the bowl. Then use the bolt supplied to securely affix the acrylic bowl into the post.

A4 metal sign holder (sold separately) can also be used to attach the bowl to a post

| Colour | Clear |
|---|---|
| Diameter (mm) | 230 |
| Height (mm) | 110 |

## METAL SIGN HOLDER / METAL STEM

### QM-SH & QM-TF-STEM

The EZI-Q® metal sign holder is produced as one welded piece with the frame attached. For different sized or coloured ticket frames, the stem can be purchased as a separate item (SKU: QM-TF-STEM). See pages 47-48 for ticket frames and accessories.

A4 Metal Sign Holder QM-SH

Stem Only QM-TF-STEM

*Shown with blue ticket frame (TF-A) & t-piece (TF-TC)

| Colour | Black |
|---|---|
| Metal Frame Size | A4 Portrait |
| Stem Size (mm) | 240 H x 10 Diameter |
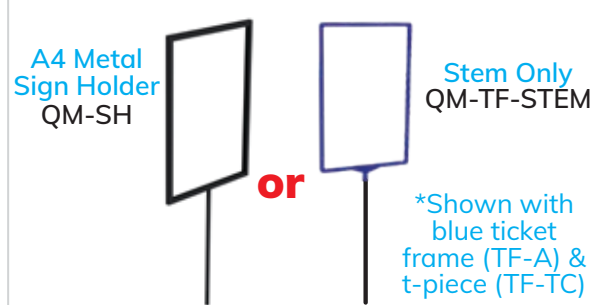

## HORIZONTAL SIGN HOLDER

### QM-TSH (600) / GD-V-TSH (850)

| Colour | Black |
|---|---|
| Size (mm) | 600, 850 L (Sides of frame 85 high) |
| Artwork Size (mm) | 599 / 849 L x Your choice of height (image shows sign at 150 high) x 8mm max thickness corflute/PVC, with 15mm internal margin at base |

Acrylic artwork protectors (shown in image) are 150mm high and available separately
QM-TSH-600-A150 / GD-V-TSH-850-A150

# VERSA GONDOLAS

The **most versatile, premium, heavy-duty** shelving system in the market!

Thick reinforced steel shelves with added support gussets achieve a weight load rating upwards of 150kg per shelf*

Mix 'n match backing panels on the same bay

Optional roll out drawers

*Approximate weight load based on Versa 350mm shelf and bracket. For full weight load recommendations, please refer to the 'Versa Recommended Weight Loading' specification document which can be supplied upon request.

# REAR PANELS

| | Volcano Pegboard | Flat Metal | Grid Mesh | Slatwall (Special Order) |
|---|---|---|---|---|
| Heights | 100, 300, 400mm | 100, 300, 400mm | 1200, 1400, 1800mm | 100mm |

# KEY FEATURES

## CONSTRUCTION

- Made from **premium grade steel** with a **50mm pitch** on upright posts.
- Kits are available with your choice of height, width, rear backing panels **(volcano pegboard, slatwall, flat metal or grid mesh)** and base shelf height/depth. Add brackets and shelves separately.
- The unique volcano pegboard design **supports heavy loads** on pegboard hooks without deflecting.

## VERSATILITY

- Choose different height feet on the same double sided gondola or customise your display by combining different panel styles within the same bay.
- Accessories include **top covers, shelf risers, base drawers, horizontal/hanging signage** or **LED lights**! PLUS Versa gondolas also fit EZI-Q® accessories such as **wire baskets** and **magazine racks**.
- Other colours or sizes can be ordered (lead times and minimum order quantities apply).

## SHELVES

- Two types of shelves (**wire or flat metal**).
- 300-370mm shelves feature one support gusset whilst 400mm shelves (and larger) utilise **two support gussets for extra strength**.
- Versa shelf brackets allow shelves to be positioned flat or on **one of two angles**! 10º or 20º.
- Both shelf types cater for optional **clear front risers** to be inserted. Flat metal shelves also allow for optional **wire fences**.
- Risers and fences stop products falling forward whilst maintaining an **unobstructed view of the product;** perfect when positioning shelves on various angles.
- Versatile flat metal shelves feature an **angled front edge** (for better data strip visibility).
- Special **Clip-On data strips** (pages 25 & 26) will fit both wire and flat metal shelves.

Clips onto the rear of the upright and is then screwed into the wall

# CLASSIC GONDOLAS

The perfect shelving system for most retail outlets.
Designed with slimline brackets and neat shelf edges.

## KEY FEATURES

- Made from **premium grade steel**.

- Powder coated white.

- Available with your choice of either **volcano metal pegboard** or **flat metal** rear panels.

- Unique volcano pegboard designed to **withstand deflection from heavy loads** on pegboard hooks.

- Streamlined **0.6mm classic series shelves** to support general merchandise for most industries. **No protruding edges** ensures a clean display.

- **Feet are supplied separate to uprights** (achieving savings in freight).

- **Slimline** brackets concealed underneath the shelves blend in for optimal visibility of product.

- Kits are available with your choice of **height, width, backing panels** and **base shelf depth**. Add brackets and shelves separately.

- Customise your display with a variety of accessories including **top covers, front kick plates, wall brackets, wire baskets, shelf risers, drawers, sign holders or LED lights!**

# WALL STRIPPING

A simple method for effective shelving is the use of wall stripping. Choose your uprights, brackets and shelves for a streamlined display mounted to your wall. This method helps save on space and is much more cost effective than freestanding systems. Wall stripping is perfect for displaying lighter products on walls for a clean and uncluttered display.

## WALL STRIP UPRIGHTS — WS-S & WS-D

Uprights consist of a 40mm pitch and are available with single or double slots. Single slots are suited for the end of your shelving whilst double slots are used for holding a bracket on either side for the continuation of shelving across a larger wall.

☐ Chrome

| Pack Qty | 1 | |
|---|---|---|
| Styles Available | Single Slot | Double Slot |
| Heights (mm) | 1800, 2400 | 1800, 2400 |
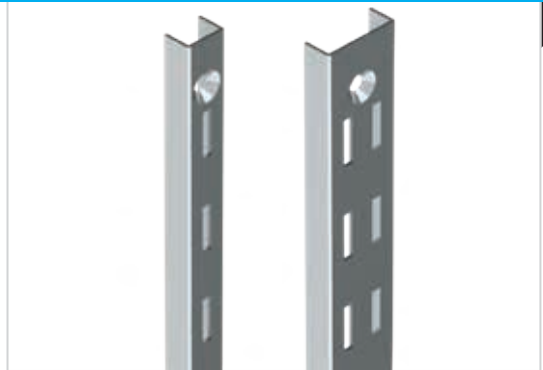

## WALL STRIP SHELF BRACKETS — WS-BS

Brackets designed specifically for wall strips. Supports glass, acrylic or melamine shelves. Available in 200, 250, 300 and 400mm lengths. Use 2 brackets for each shelf length and connect multiple shelves for a larger area with the centre shelf grommets. Shelf grommets (sold separately on next page) protect shelves from scratches.

☐ Chrome

| Pack Qty | 1 |
|---|---|
| Lengths (mm) | 200, 250, 300, 400 |
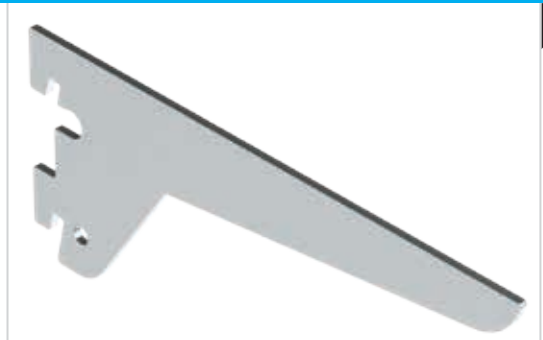

## SHELF GROMMETS

Grommets are used on top of brackets before adding a shelf, to keep shelves sturdy and in their place. End grommets are used for the end of a shelf, whilst centre grommets are placed on top of a bracket to support shelving on either side.

End

Centre

| Styles Available | End or Centre |

## MDF SHELVES

SF-MEL

A simple shelf for all applications. Consists of a laminated MDF board and 2mm PVC edging on all sides. Available in 3 lengths, all 18mm in total thickness. Use brackets and grommets (sold separately above) to add MDF shelves to your display.

☐ White

| Pack Qty | 1 |
|---|---|
| Lengths (mm) | 600, 900, 1200 |
| Depth of Shelf (mm) | 300 |
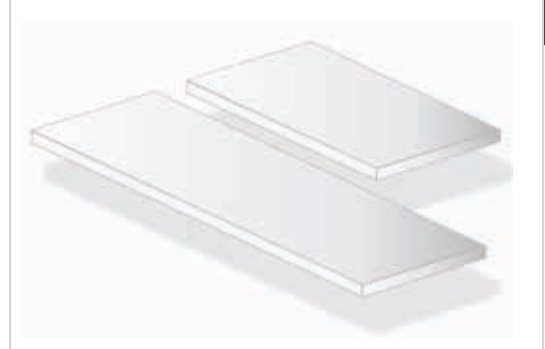

## WALL STRIP HANGRAIL

WS-HR12

Hangrails are used to hang garments outwards from a wall strip display. Insert shelves slightly smaller than the hangrail to utilise the open area at the front of the rail to hang merchandise. This allows you to both hang and shelve items on the one fitting. Choose a shelf 255mm deep (not included) to utilise this functionality. Brackets for holding shelves neatly within the hangrail are sold separately on page 60. A variety of hangrail lengths are available, all with 300mm depths.

☐ Chrome

| Pack Qty | 1 |
|---|---|
| Lengths (mm) | 600, 900, 1200 |
| Depth of Shelf (mm) | 300 |
| Size of Bar (mm) | 12 W x 32 H |
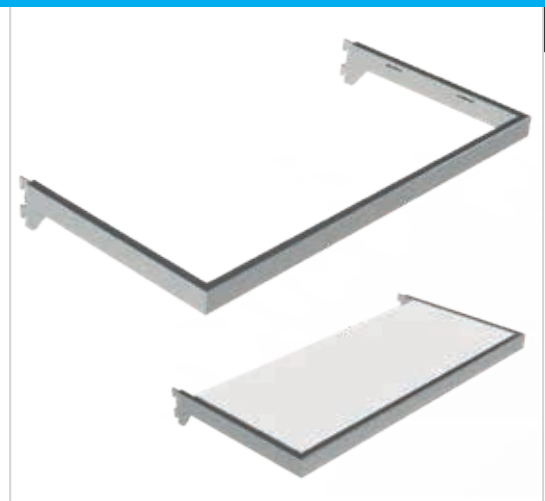

## WALL STRIP CROSSBAR

WS-R12

Crossbars are connected either end to uprights. They allow for crossbar arms and hooks to be added to the wall strip system. Add crossbar hooks (sold separately SKU: DHB) to display hangsell merchandise or add crossbar arms (also sold separately) to display items out from the crossbar. See page 38 for crossbar hooks and arms.

☐ Chrome

| Pack Qty | 1 |
|---|---|
| Suits Bay Lengths (mm) | 600, 900, 1200 |
| Size of Bar (mm) | 12 W x 32 H |

# EZI-GLIDE®
## AUTO FACING ROLLER SHELVES

**5 YEARS WARRANTY**

Front View

Side View

## KEY FEATURES

- **Quick and easy** to install.

- **Low maintenance** resulting in **reduced labour costs.**

- Improves **product presentation** and ensures products are **always front facing.**

- **Improved stock rotation**, perfect for back fed refrigerated merchandising.

- **Durable and long lasting**.

- Versatile and adjustable dividers to support **heavier products**. Choose from steel wire or full steel dividers.

- Boosts category sales by offering a **consistent display of stock**.

- Mats **can be modified** to increase or decrease widths in **50mm increments**.

- **Other sizes can be ordered** (minimum order quantities and lead times apply).

## GRAVITY ROLLER SHELF MATS                    EZ-G1-RS

The newest product gaining popularity is Ezi-Glide® roller shelves. This unique system is used as a gravity feed shelving solution which improves visibility of product and allows for easy re-merchandising. With it's auto facing ability, the result is no more empty facings, which equates to more sales!

| Mat Colours | Black | Off White |
|---|---|---|
| Depths (mm) | 572 | 294 |
| Set Widths (mm) | 693, 743 | 450 |
| Width Sizing (mm) | Mat widths can be resized in 50mm increments | |

SIretail®

## PRODUCT DIVIDERS

Dividers are easy to move and align along numbered perforated front and back rails, creating perfectly straight displays. Choose from simple steel wire dividers for most everyday products or try the full steel style of dividers which stand 110mm in height, perfect for large and heavy items.

110mm High Full Steel Powder Coated Black
EZ-G4-MD

3mm Stainless Steel Wire Dividers
EZ-G3-WD

## FRONT RISERS

Place an acrylic riser at the front of the mat to stop products falling forward and off the shelf. The benefits of using clear front risers fed into the roller track from the sides means that the riser will not fall out and break unlike similar gravity fed systems used in the market which utilise a drop-in style of front riser.

Clear

| Pack Qty | 10 | | |
|---|---|---|---|

Divider locations

Riser inserts from the side

## ANGLED SHELF SUPPORTS

If your shelf is unable to be angled itself, simply use our angled shelf supports to instantly angle the roller gravity mat. These angled shelf supports are so easy to use, just clip one onto either side of the back of the mat to sit your mat at either a 15 or 21 degree angle. Your products will now use gravity to slide along the rollers to the front of the mat creating the perfect self-facing system.

Silver Stainless Steel

# DIVIDE-IT ®
## SHELF MANAGEMENT SYSTEM

SI Retail's shelf dividers are designed for the ever changing in-store environment to allow for quick merchandising and a seamless product presentation. Pushers and Dividers are great tools for helping to reduce staffing costs related to shelf maintenance and enhance your customers shopping experience by making it even more convenient to browse.
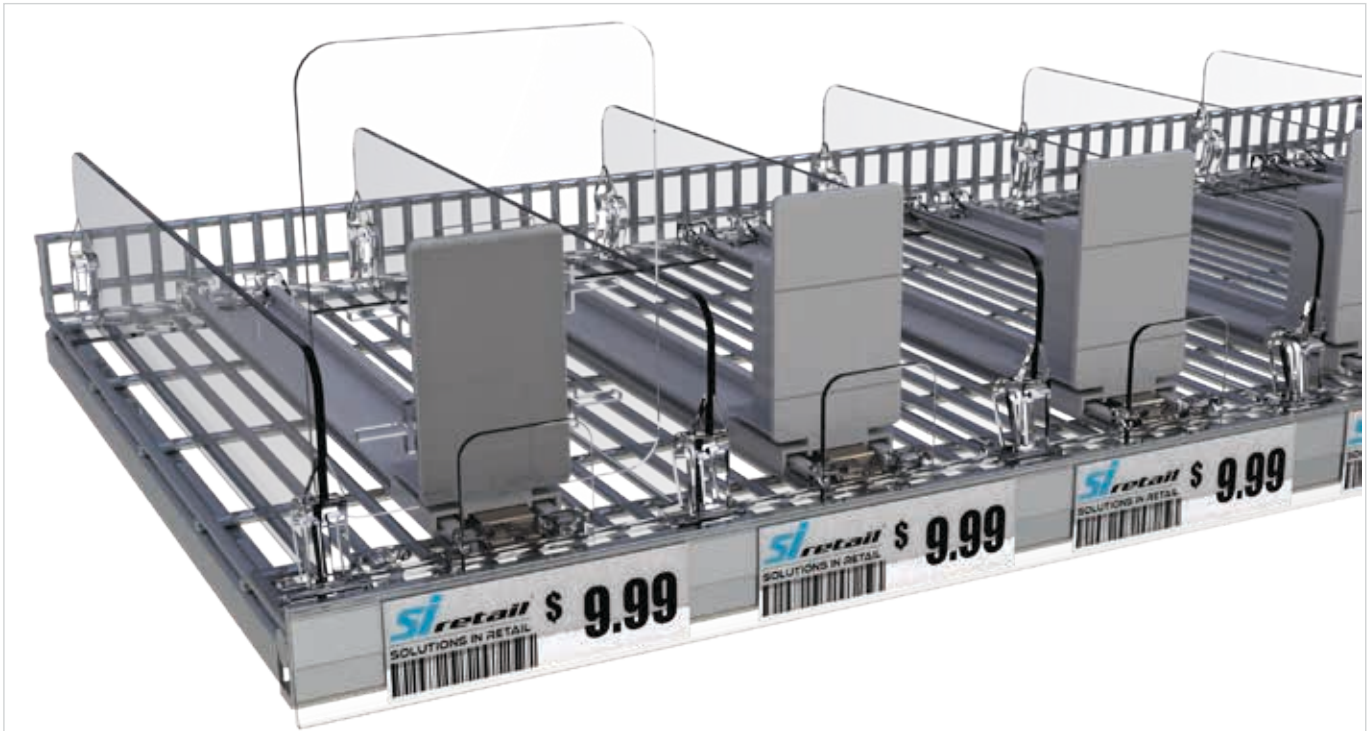

## T-RAILS & RISERS

T-Rails sit on the front and back of shelves for the dividers and pushers to clip onto. They hold the dividers in place and are available in a clip-on version for wire shelves (extra replacement clips are also available), adhesive version for most applications or a magnetic version for metal shelves. Adhesive T-Rails with 40mm high front risers are commonly used with pushers to stop product from being pushed too far forward and off the shelf.

## DIVIDERS

SMS-DS

Dividers are used to separate different products on your shelves for a neat and consistent display. They are available in either a 60mm height or 120mm height and are made to a number of different lengths to suit all shelving sizes. T-Rails are sold separately and are placed along the front and back of the shelf for the dividers to clip into.

| 120mm Divider Lengths (mm) | 335, 385, 435, 485 |

## PUSHERS

SMS-P & SMS-PBS

Pushers, Pusher Back Plates & Front Risers are commonly used with shelf dividers as a full shelf management system. The 30mm wide pusher connects to the T-Rail (between two shelf dividers) to ensure your products are always placed at the front of the shelf even when a customer takes an item. Pusher back plates can be added for larger items which need a taller pusher.

**Position magnetic LED strip anywhere under the shelf**

**Magnetic LED strip light**

**LED to power track connector with magnets for positioning under shelf**

**Magnetic power track which connects to the power supply**

**1** Position tracking rail with connectors along the rear (1) or side (2) of your gondola!

**2**

NO LIGHTING

LED LIT

## DAISY CHAIN LED KITS

Daisy chain LED kits are used for lighting a horizontal strip along gondolas whereby the power track is bypassed and instead, a direct link to the power supply is utilised (LED-PC-MWST). No power tracks or power track to LED connectors are required for a daisy-chain horizontal set up. LEDs connect to each other with an LED to LED connector (LED-PC-LL), creating a 'chain' of LED light across your store. Please note that no more than 4 lights are recommended per daisy chain splitter.

**Position magnetic LED strip anywhere under the shelf**

**Magnetic LED strip lights**

**Connect multiple lights to form the daisy chain effect**

**LED to power supply connector with magnets for positioning under shelf**

# DATA STRIPPING

SI Retail offers the highest quality data strips. We stock a wide variety of profiles, sizes and styles including self-adhesive, hanging and clip-on versions, with a selection of colours, heights and lengths available.

The clear front panels protect your labels and are completely transparent to allow for accurate scanning of barcodes and maximum visibility to customers. All data strips can be cut to suit your shelves.

Efficient manufacturing techniques, high quality materials and superior Avery Dennison tape ensures our data strips are made to last and always present well.

The popular Avery Dennison tape boasts features such as:

- Resistance to heat, UV and humidity
- Stain resistance and elimination of yellowing or other colour changes
- Clear adhesive means an invisible assembly every time!

VERSA
WIRE SHELF

COMMON
WIRE SHELF

**The first of its kind, patented clip-on feature - exclusive to SI Retail.**
Granted Innovation Patent Nos. 2019100606 and 2019100660, Standard Patent Pending Nos. 2018204559 and 2019204920; Design Regn Nos. 201814049 and 201814050.

Introducing new Clip-On data strips. An alternative to traditional self-adhesive data strips; this style was designed with versatility in mind. In addition to being used on Versa flat metal shelves and EZI-Q® shelf options, it also clips onto most common standard wire shelves with a 27mm front face and 12mm return.

Flat
Position

- No adhesive = less mess, less cleaning, an easier application and reduced labour costs.
- Temperature and humidity doesn't impact the stability. Ideal for use in cold rooms or refrigerators.
- Fits most common standard wire shelves. One data strip can be used in both the flat or angled position on Versa flat metal shelves with a simple clip-into-place motion.
- Available with or without the exclusive talker grip.

VERSA
FLAT METAL
SHELF

Angled

# DISPLAY HOOKS

Hangsell products are best displayed on hooks! Whether you have a Volcano Board, Pegboard, Slatwall, Flat Metal or Grid Mesh Panel, SI Retail has the hooks to suit.

SI Retail's flip scan display hooks are designed so that the label remains level irrespective of the load on the hook, meaning all of your labels will align neatly no matter what you are displaying. With a large array of sizes and wire diameters, there are hooks to suit every application.

## VOLCANO PEGBOARD

### LOOP HOOK                                                              DHP-L4

Gain stability when displaying heavy products with the use of loop hooks. They suit Volcano Board, Pegboard and Slatwall and are available in a wide variety of lengths.

☐ Chrome

| Pack Qty | 25 |
|---|---|
| Lengths (mm) | 75, 100, 150, 225 |
| Wire Diameter (mm) | 4 |

### FLIP SCAN LOOP HOOK                                                    DHP-FL4

Chrome flip scan loop hooks provide an area to attach a label holder (sold separately). They suit Volcano Board, Pegboard and Slatwall and are available in a variety of different lengths. They help to hang unbalanced packaging evenly. Label holders are available in many different colours and with or without a talker grip.

☐ Chrome

| Pack Qty | 25 |
|---|---|
| Lengths (mm) | 150, 225 |
| Wire Diameter (mm) | 4 |

Label holder sold separately (page 39)

### SINGLE PRONG                                                           DHP-S

Pegboard single prong hooks suit Volcano Board and Slatwall too. They are available in a wide variety of lengths and wire diameters. These simple hooks keep your hangsell products looking neat and tidy.

☐ Chrome

| Pack Qty | 25 | |
|---|---|---|
| Lengths (mm) | 50, 75, 100 | 150, 225, 300 |
| Wire Diameters (mm) | 4 | 5 |

## FLIP SCAN

Chrome flip scan hooks provide an area to attach a label holder (sold separately) and suit Volcano Board, Pegboard and Slatwall panels. Choose from a variety of lengths and two different wire diameters. Label holders are available in many different colours, sizes and with or without a talker grip.

☐ **Chrome**

| Pack Qty | 25 | |
|---|---|---|
| Lengths (mm) | 75, 100, 150 | 150, 225, 300, 400 |
| Wire Diameters (mm) | 5 | 6 |

Label holder sold separately (page 39)

## SINGLE PRONG FASTBACK

**DHPF-S-T**

Perfect for tight spaces such as under shelves, fastback display hook stems attach to a fastback adapter. This combination is designed to save time by helping you place or move hooks on display without removing shelves or merchandise around the hook as there is no need to tilt the hook up to insert it into your gondola panel.

☐ **Chrome**

Stem and fastback can be ordered separately

| Pack Qty | 25 |
|---|---|
| Lengths (mm) | 150, 225, 300 |
| Wire Diameter (mm) | 5.5 |

## FLIP SCAN FASTBACK

**DHPF-F-T**

Flip scan fastback hooks provide an area to attach a label holder (sold separately). Hook stems are universally designed to clip into different adapters as required, meaning one hook stem will fit both adapters (Pegboard or Grid Mesh). The fastback style allows for a direct application into tight spaces such as under shelves or in-between merchandise as the stem does not require tilting upwards to be inserted.

☐ **Chrome**

Stem and fastback can be ordered separately

| Pack Qty | 25 |
|---|---|
| Lengths (mm) | 150, 225, 300 |
| Wire Diameter (mm) | 5.5 |

Label holder sold separately (page 39)

## REPLACEMENT PEG FASTBACK ADAPTER

**DHA-FB-PEG**

The Pegboard fastback adapter is made from durable ABS plastic and fit onto Pegboard/Volcano Board backing panels. Simply attach onto your Pegboard/Volcano Board gondola and connect a single prong or flip scan fastback hook.

☐ **Grey Adapter**

| Pack Qty | 25 |
|---|---|
| Size (mm) | 45 W x 65 H x 30 D |

# FLAT METALBOARD

## SINGLE PRONG — DHM-D

These single prong hooks are designed specifically for flat Metalboard applications. Select from a variety of lengths to suit your merchandise.

☐ Chrome

| Pack Qty | 25 |
|---|---|
| Lengths (mm) | 100, 150, 225 |
| Wire Diameter (mm) | 5 |

## FLIP SCAN — DHM-F

Metalboard flip scan hooks are designed specifically for perforated flat metal panels. They include an area to attach a label holder (sold separately). Label holders are available in many different colours, sizes and with or without a talker grip.

☐ Chrome

| Pack Qty | 25 | |
|---|---|---|
| Lengths (mm) | 100, 150, 225 | 150, 225, 300 |
| Wire Diameter (mm) | 5 | 6 |

## PEGBOARD TO METALBOARD ADAPTER — DHA-MA

A simple adapter which enables a Pegboard hook (see previous page) to fit into a flat perforated Metalboard panel. The adapter attaches to the back of any Pegboard/Volcano board hook to retain the same angle as other Metalboard hooks.

☐ Light Grey   ■ Black

| Pack Qty | 25 |
|---|---|
| Size (mm) | 37 W x 35 H x 3 D |

# SLATWALL

## SINGLE PRONG - PLATE STYLE                    DHS-S

These single prong hooks are designed specifically for Slatwall applications. Select from a variety of lengths to suit your merchandise.

☐ **Chrome**

| Pack Qty | 25 |
|---|---|
| Lengths (mm) | 50, 100, 150, 200, 300 |
| Wire Diameter (mm) | 6 |

## FLIP SCAN - PLATE STYLE                       DHS-F

These flip scan hooks are designed specifically for Slatwall. They are available in a wide variety of lengths and designed with an area to attach a label holder (sold separately). Label holders are available in many different colours and with or without a talker grip.

☐ **Chrome**

| Pack Qty | 25 |
|---|---|
| Lengths (mm) | 100, 150, 200 |
| Wire Diameters (mm) | 6 |

Label holder
sold separately
(page 39)
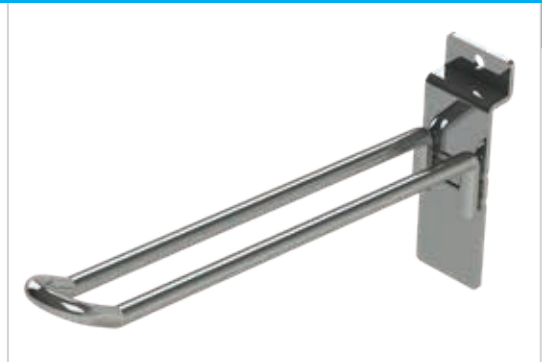

## LOOP HOOK - PLATE STYLE                       DHS-L6

These loop hooks are designed specifically for Slatwall. Loop hooks help to hang unbalanced packaging evenly, while the large back plate aids in supporting heavier products.

☐ **Chrome**

| Pack Qty | 25 |
|---|---|
| Lengths (mm) | 100, 150, 200 |
| Wire Diameter (mm) | 6 |

# GRID MESH

## SINGLE PRONG                                    DHG50-S

Single prong Grid Mesh hooks are designed to fit 25-50mm mesh. Select from multiple sizes to suit your merchandise and display requirements.

☐ **Chrome**

| Pack Qty | 25 | |
|---|---|---|
| Lengths (mm) | 150 | 225, 300 |
| Wire Diameters (mm) | 5 | 6 |

## FLIP SCAN                                    DHG50-F

The new version of flip scan grid mesh hooks provide an area to attach a label holder (sold separately) and suit 25-50mm Grid Mesh. This new design makes it harder for hooks to get knocked off mesh panels. A variety of lengths are available for both black or chrome colours.

☐ **Chrome**     ■ **Black**

| Pack Qty | 25 | |
|---|---|---|
| Lengths (mm) | 100, 150 | 225, 300 |
| Wire Diameters (mm) | 5 | 6 |
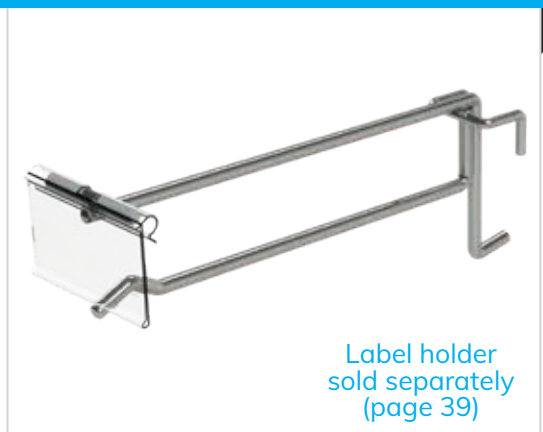

Label holder sold separately (page 39)

## SINGLE PRONG FASTBACK

### DHGF-S-T

Perfect for tight spaces such as under shelves, fastback display hook stems attach to a fastback adapter to fit grid mesh panels with a 25 or 50mm pitch. This combination is designed to save time by helping you place or move hooks on display without removing surrounding shelves, hooks or other merchandise. One fastback hook stem fits all fastback adapters.

Chrome

| Pack Qty | 25 |
|---|---|
| Lengths (mm) | 150, 225, 300 |
| Wire Diameter (mm) | 5.5 |

Stem and fastback can be ordered separately

## FLIP SCAN FASTBACK

### DHGF-F-T

Chrome flip scan fastback hooks provide an area to attach a label holder (sold separately). These hooks are universally designed to clip into different adapters as required. Adapters are available to suit Pegboard/Volcano Board or 25-50mm Grid Mesh panels. This hook and adapter combination suits Grid Mesh and allows for a direct application into tight spaces without having to be tilted upwards to be inserted.

Chrome

| Pack Qty | 25 |
|---|---|
| Lengths (mm) | 150, 225, 300 |
| Wire Diameter (mm) | 5.5 |

Stem and fastback can be ordered separately
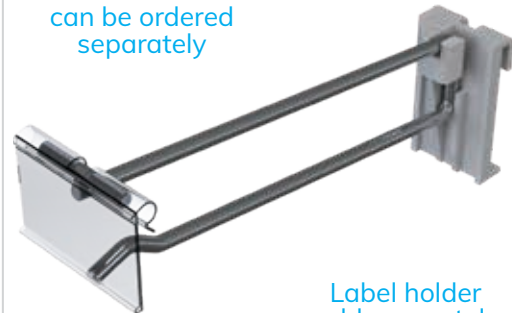

Label holder sold separately (page 39)

## REPLACEMENT GRID FASTBACK ADAPTER

### DHA-FB-GRID

The Grid fastback adapter is made from durable ABS plastic and shaped to fit onto 25 or 50mm Grid Mesh backing panels. Simply attach onto your Grid Mesh gondola and connect a single prong or flip scan fastback hook.

Grey Adapter

| Pack Qty | 25 |
|---|---|
| Size (mm) | 35 W x 62 H x 25 D |

# SPECIALTY HOOKS

## HAMMER HOOK — DHP-HH

Suits volcano pegboard, flat metal and slatwall panels. Holds approximately 3 hammers on an angle. Can be used for many different products in other industries that are sized approximately 130mm in length and under 200mm wide. The middle prong also acts as a label holder to ensure your products are easily priced. Labels are sold separately.

⬜ **Chrome**

| Pack Qty | 5 |
|---|---|
| Length (mm) | 250 |
| Width (mm) | Protrudes 140mm from gondola |

## SHOVEL HOOK — DHP-SH

Perfect for hardware stores but can be used for many other applications. The shovel hook fits onto volcano pegboard, flat metal and slatwall panels. It holds 6 shovels front on and is made from high quality durable steel.

⬛ **Black**

| Pack Qty | 15 |
|---|---|
| Length (mm) | 155 |
| Width (mm) | Protrudes 390mm from gondola |

# HOOK SECURITY

## STOP LOCKS — DHA-STOP-LOK

Secure merchandise on your hooks and prevent theft with SI Retail's stop lock range. Make sure to purchase a magnetic key to open the stop locks (available separately DHA-MAGKEY).

🟥 **Red**    ⬛ **Black**    ⬜ **White (8mm Only)**

| Suits Hook Diameters | Up to 4mm | Up to 6mm | Up to 8mm |

# CROSSBAR HOOKS & ARMS

## SINGLE PRONG 12mm CROSSBAR HOOK — DHB-S6

Crossbar hooks attach to crossbars by simply placing the open gap section of the hook over the top of the crossbar and pressing down to lock it in place. They include a velvet inner to prevent scratches to the crossbar when attaching it.

☐ Chrome

| Pack Qty | 25 |
|---|---|
| Lengths (mm) | 100, 150, 200 |
| Suits | Any 12mm Crossbar (Versa / EZI-Q®) |

## FLIP SCAN 12mm CROSSBAR HOOK — DHB-F6

Simply attach this hook to a crossbar by placing the open gap section of the hook over the top of the crossbar and pressing down to lock it in place. A velvet inner prevents scratches to the crossbar. This style of hook includes an area for attaching a label holder (sold separately) to price items hanging from the hook.

■ Black    ☐ Chrome

| One Size Suits (mm) | 3.8 to 6.5 Diameter Hooks |

# IMPULSE DISPLAYS

## BULK GOODS MOBILE DISPLAY — FD-BG-CR

This custom display was designed to carry large and heavy loads. The strong centre pole helps you to easily guide the display around your store utilising the four heavy duty castors. This allows bulk items to be displayed in different impulse locations without the strain of continually lifting heavy products.

**■ Charcoal Unit**    **■ Black Ticket Frame**

## ADJUSTABLE PALLET GUARD — FD-PG-BK

A simple method for concealing the base of existing pallets to make it more attractive and help draw attention to products. Pallet guards also have the added safety benefit of ensuring the corners of pallets are fully covered, protecting customers from any sharp edges. All wooden edges are completely hidden, resulting in a visually appealing display. Add custom promotional messages to your pallet guard by inserting printed corflute (shown in image). Contact us for a template.

**■ Black**

## INTEGRATION

The wire cradle can also be used on the revenue generating EZI-Q® impulse display system.

# SIGNAGE / POINT OF SALE

SI Retail provides a complete range of signage and point of sale display systems to suit all retail outlets. From external sign boards, window signage, internal snap frames, hanging banners and shopping baskets to talker ticketing, poster grips, and general visual merchandising signage; the possibilities are endless.

Signs are used to draw attention to promotions and to convey information about your business. Below are examples of how some stores are utilising signage to entice customers. The aisle sign below is held up using two magnetic aisle sign holders attached to the gondola. Quality is imperative when it comes to holding signage and SI Retail only stock the highest quality sign holders, acrylics, T-grips and ticket frames.

# END-SIGNS

Created in 1974, the End-Sign was the foundation of our business and is still an effective promotional tool used on store fronts to increase product or brand awareness. Stand out to customers and maximise your exposure with an eye catching custom printed end-sign. Perfect for attaching to shop windows, the end-sign makes it easy for customers to find your store and is a cost effective tool for attracting passing traffic.

Featuring a high quality and solid design; the end-sign components can be purchased individually or as a full kit. UV stabilised blank flags withstand environmental elements and are available to be purchased for custom printing by your local print specialist.
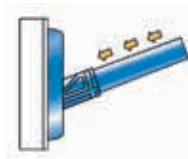

**1** Peel off the double-sided tape backing from the base and adhere to a surface.

**2** Insert the bush into the top of the base and slide it down to lock it into place.

**3** Insert the pole into the bush.

**4** Insert the flag into slit of the pole.

**5** Attach the end cap to the pole to lock the flag into place.

## END-SIGN KITS                                           ES-UNIT-T

This kit contains all components needed for an end-sign except for the flag. Available in black or white, the kit contains an adhesive base, a bush which slides into the base (allowing you to display your flag on two different angles with the option of mounting the base vertically or horizontally), the main pole and the end cap which is placed on the end of the pole once your flag is inserted to lock the flag in place.

# TICKET FRAME ACCESSORIES

Stand ticket frames up with feet, hang them with hooks or attach to a surface with an adhesive base. The possibilities are endless.

☐ Clear

| Item | Code (SKU) | Use |
|---|---|---|
| Adhesive Base Clip | TF-AB-CL | Fix your ticket frame to a certain location with an adhesive clip where it will not move or get knocked over |
| Standalone Feet | TF-FEET-CL | Purchase 2 x feet to create a self standing ticket frame to place on counters or shelves |
| Hanging Hooks | TF-HANG-CL | Hang your ticket frame using 2 hooks |

TF-AB-CL    TF-FEET-CL    TF-HANG-CL

# TICKET FRAME MAGNETIC ATTACHMENTS

Attach ticket frames to metal surfaces using a fixed attachment or hinged version depending on your requirements. The hinged version allows a stem and T-piece to be inserted to extend the ticket frame higher. It also moves forward or backwards, allowing the ticket frame to be placed on an angle whilst the base remains fixed.

■ Black    ■ Red    ■ Blue    ☐ White (Fixed Only)

| Item | Code (SKU) | Use |
|---|---|---|
| Fixed | TF-MAG | Fix your ticket frame to a metal surface |
| Hinged | TF-MAG-HG | Attaches ticket frame to a metal surface with different sized stems (50, 150 or 300mm) and can also be moved up or down to angle the ticket frame |

# SLATWALL

Slatwall is one of the most popular panel backings available today. It consists of 100mm panels with 10mm grooves stacked together to form a wall. SI Retail stock a huge variety of Slatwall displays and accessories such as brackets, signs, shelves, arms, hangrails, hooks and acrylic displays.

Customers can select our free standing Slatwall spinning tower which is ideal for small store spaces and assists in helping you find the best impulse location within your store. The benefit of Slatwall display stands is that they can be easily configured with a wide range of accessories including wooden or acrylic shelves, display hooks, signage and hanging fixtures such as merchandising arms, rails and organisation tools like Slatbox containers or brochure holders. It's never been so easy to create eye-popping shop displays!

## SLATWALL SPINNING TOWER

### DC-SW-TOWERS-460WT

Perfect for small in-store spaces, the slatwall spinning tower is a high quality solution which can be used to display a variety of hanging items. It consists of standard 100mm high slatwall panels (fits slatwall hooks) and includes protective rubbers on the base to prevent any scratches to your floor. In addition to being smooth and easy to spin, it is also very quick and easy to set-up! This space-saving tower can display hangsell products on all four sides, making it a perfect addition to your store. Add a self-standing ticket frame to the top and hooks with label holders for a complete solution (accessories sold separately).

*Hooks & accessories sold separately

# SLATBOX STORAGE

Slatbox containers are a strong and versatile storage system comprised of different sized and shaped bins that are designed to fit into all major slotted wall systems. They provide retailers with the ability to organise their store and products to make it more appealing to customers; and are a great solution for organising and separating smaller or difficult to arrange products which may not have any hangsell ability.

Slatbox storage containers are easy to assemble and take down, making them perfect for temporary displays or for spaces where product ranges change often. They are great for all areas and have a place within every industry. From day-care centres, hospital supply rooms, confectionery stands, fishing tackle stores and everything in-between. Slatbox storage containers can also be used on pegboard displays with the use of a pegboard adapter or on grid wire/mesh with the use of a grid adapter.

Slatbox offer a large array of different styles and sizes to cater to your every need. A truly versatile product range for a variety of applications.

# GARMENT RACKS

Garment racks are one of the most popular methods of displaying clothes and creating head-turning shop displays. We offer a range of high quality and affordable garment racks to suit any retail store that stocks apparel as part of their product range. Choose from mobile salesman racks, heavy-duty clothes racks, or for smaller store spaces, opt for 2-way or 4-way clothes racks with your choice of straight and/or waterfall arms.

These versatile garment racks are designed to be easily maneuverable; making them the perfect solution to display clothing for either permanent or temporary displays (whether in-store, at markets, or for any other fashion focused event). With a sleek and modern design, SI Retail's garment racks are made from high quality materials and will last for years to come. They come flat-packed and are very easy to assemble.

Try grouping items by colour, as this is visually appealing to customers. Alternatively, if you're using tiered racks, another way of increasing sales is to cross merchandise garments. This gives customers a better idea of how they can put an outfit together using your products.

## MOBILE GARMENT RACKS — GR-MOBILE

Collapsible salesman racks are available with either a single or double rail (black only available in single rail option). Included heavy duty castor wheels make the mobile racks great for specials, temporary displays, markets and events. They are quickly disassembled and reassembled for transportation and storage. Height and rail lengths can be adjusted to create additional hanging space.

# CUSTOM CAPABILITIES

Now it's easy to enhance your in-store environment with custom branded fixtures and fittings without the barriers that arise from sourcing out of China. SI Retail offers in-house industrial design for all custom-made shop fitting requirements. Australia's leading retailers utilise SI Retail's design services and endless manufacturing capabilities (in metal, acrylic, fiberglass, joinery/wood, plastic, aluminium and glass) to obtain unique product or merchandising solutions relative to their goals.

From the initial brief of a product, to its design and prototyping, development, production, packing, quality assurance and finally logistics, we have the solutions, suppliers and experience to take care of your custom project and the entire process involved!

# CUSTOM FIXTURES - FULL STORE FIT OUT
(Over 200 Items Designed & Made To Order For Rebel Sports)

# CUSTOM SHELVING
## (Designed & Made To Order)

## INTEGRATED RACKING

Perfect for wholesalers or retailers who require storage above gondolas. The integrated racking system combines heavy duty back of house racking with our Versa style of gondolas for the best of both worlds. Display products on the shelves then store stock directly above the gondolas in cartons or pallets. This extra heavy duty shelving system solves the age old problem of needing storage space and is offered in two formats. One format consists of two single-sided units back to back with a spacer in-between (far right image) whilst the other format is comprised of a double sided unit with no spacer (far left image).
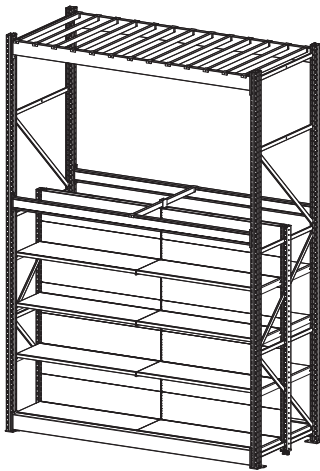

## LONGSPAN RETAIL FLOOR SHELVING

Simple longspan shelving made to order. Signage was required to showcase aisle contents. Our solution incorporated an extension from the top of the racking with an optional category header sign.

Optional Category Header Sign

# RETAIL/BACK OF HOUSE DIVIDER WALL

Since the rear of your store isn't seen by customers, a standard and economical longspan racking system is recommended. This type of racking can be set up in a small amount of time. The custom divider wall below was designed to attach to a longspan system and separate retail space from back of house operations. By integrating longspan racking with the divider, no floor space was lost yet stock could still be displayed with the use of crossbars mounted to the retail side.

RETAIL SIDE

BACK OF HOUSE

# AISLE FEATURE DENSE END

A dense end designed to finish off an aisle of gondolas. Our design features display shelves that can be positioned either flat or on an angle. The design incorporates a sign holder for the ability to insert header cards for promoting specials, brands or aisle category contents.
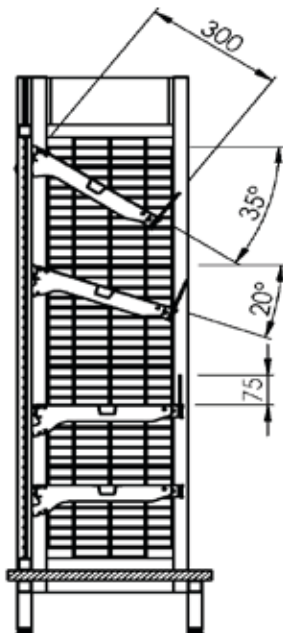

# CUSTOM DISPLAYS
## (Designed & Made To Order)

## ROUND BASKET

A basket designed to attach to shelving for displaying a handful of small items, easily accessible to customers. This design includes a flip scan label holder to display pricing and product information.

## ACRYLIC COUNTER DISPLAY

This simple yet effective counter confectionery display was created to sit on top of a counter at the purchase point for maximum impact and temptation!

## IMPULSE WIRE DISPLAY UNIT

This custom impulse display was designed to take up minimal floor space whilst displaying both hangsell and shelved products. It features curved baskets with wire fences and dividers plus a panel of grid mesh for hangsell.

## SPINNING HANGSELL DISPLAY

A spinning mobile impulse stand allowing for 15 pegboard hangsell facings. Perfect for displaying impulse items near the counter. It also includes an extra detachable panel which fits onto the top of the stand to display larger items.

## FRAGRANCE CABINET

A cabinet featuring glass shelves and a lockable glass front door. By adding LED's and a big sign holder, higher priced fragrances can be easily seen but not easily touched. This helps prevent theft or breakage of valuable items.

## UMBRELLA STAND

Just for umbrellas, this stand was designed to store and display a large selection of umbrellas within a small space.

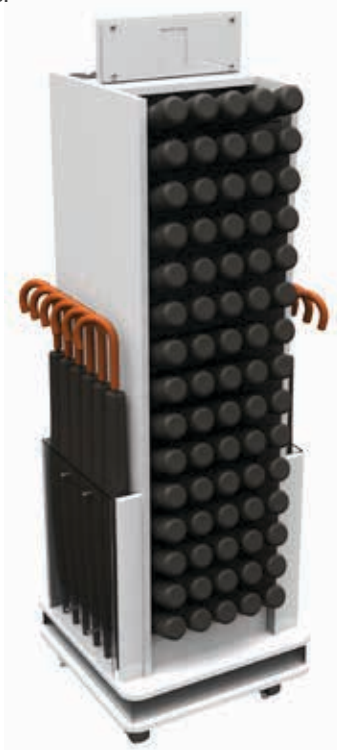

## WINE TASTING BENCHES

Creating displays for retailers is our specialty. The below designs feature a wine display bench and a wine tasting bench. Made from high quality timber and metal with large signage to attract attention.

## MOBILE APPAREL DISPLAY

One of our customers required a mobile display to showcase their apparel. They wanted to be able to move it around to find the best position for increasing sales.

## SECURITY CAMERA DISPLAY

This custom display was designed to showcase the brand and promote the quality of the security camera by allowing customers to see the recording live in store.

## MERCHANDISING TROLLEY

This custom merchandising trolley was designed to allow staff to re-merchandise the retail floor without having to carry multiple items back and forth. It features baskets to hold bigger items, large drawers for posters, tickets and signage, a metal tray for pens/paper and accessory dividers on the top. It also includes a large space to hold data strips and a holder for rubbish bags. Everything you need to keep your store looking its best can now be placed in one mobile trolley and moved around the store with ease.

## KNEE PAD DISPLAY

We designed this knee pad display for a local motorcycle accessories retailer. It can be attached to their Slatwall panels for displaying their knee pads on the gondolas.

## ADJUSTABLE 2 TIER STAND

This custom piece was designed for the petrol and convenience industry to maximise their impulse sales. Taking up little floor space, the adjustable stand comprises of two baskets which can be moved up or down on the pole as required. It also features a frame for artwork to be easily inserted. Perfect for holding chocolate bars and potato chips, this stand allows products to really stand out and provides easy access for the consumer to grab items from each basket.
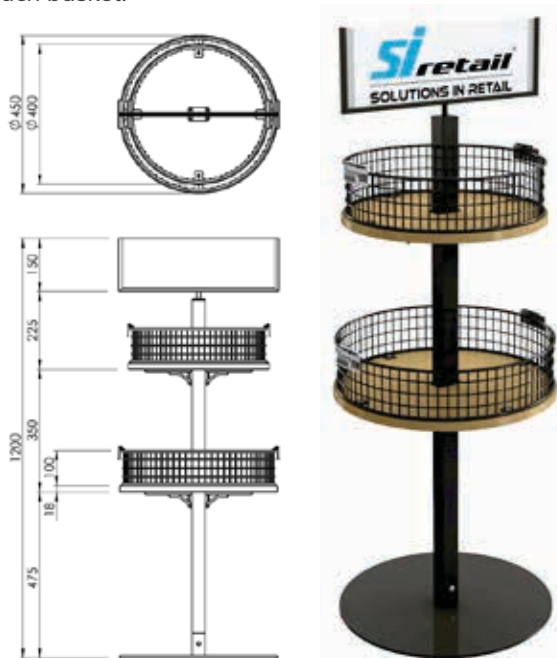

## WING ENDS

Designed with the pharmacy industry in mind, wing ends attach to a classic 1500mm high end bay to add extra merchandising space on each side of the bay. Place grid mesh hooks on the wire wings to hang product on the sides of each end bay. Optional sign panels could be added to brand or categorise each side of the wing end. The wing size was designed at 1250mm high x 300mm deep x 100mm wide with sign panels holding 1250mm high x 100 wide artwork.

## CAR ACCESSORIES DISPLAY

A custom display to suit pegboard gondolas was designed for a client to advertise their range of car accessories and allow customers to touch and feel the product.
